Overview

Preface

This technical reference is provided to postsecondary schools participating in the William D. Ford Federal Direct Loan Program. It contains technical system information that allows you to either:

- Build your own system,

- Use a system provided by another organization (for example, a software provider or third-party servicer), or

- Use EDExpress (the software package provided by the U.S. Department of Education) in combination with your own system or vendor provided software.

Common Origination and Disbursement

All schools participating in Title IV Student Financial Assistance are using the Common Origination and Disbursement (COD) System for 2002-2003 to process the Federal Direct Loan Program and the Federal Pell Grant Program using one of two processing models. The two models are:

- Full Participation

- Phase-In Participation.

The difference in the two models is driven by the data transmissions between the institutions and the COD System.

Full Participation

Full Participation is a new processing model. The Full Participant communicates over the Student Aid Internet Gateway (SAIG) using the XML-based Common Record which is defined in the COD Technical Reference.

The Common Record uses a shared format for both the Federal Pell Grant and Direct Loan Program transmissions and for the campus-based programs of SEOG, Perkins Loan and College Work Study. This latter capability for campus-based is optional for a school.

Note: Full Participants should use the COD Technical Reference found at **www.SFAdownload.ed.gov**.

Phase-In Participation

Phase-in Participation is the continuation of the current processing model for the Direct Loan Program and for the Pell Grant Program. Phase-In Participants communicate over the SAIG using the record layouts defined in this 2002-2003 Direct Loan Technical Reference and the 2002-2003 Pell Grant Technical Reference.

Note: Direct Loan Phase-in Participants continue to use the fixed length record layouts and processes described in this technical reference. Pell Phase-in Participants continue to use the fixed length record layouts and processes described in the Pell Grant Technical Reference at **www.SFAdownload.ed.gov**.

2002-2003 Direct Loan Processing for Phase-In Participants

For 2002-2003, Direct Loan Phase-in Participants should:

- **Transmit all batch files to the SAIG to be forwarded to COD (Loan Origination will no longer occur at the Loan Origination Center (LOC) in Montgomery, AL.)**

- Perform on-line PLUS Credit Checks for all program years on the COD Web site (The address to be provided at a later date.)

- **Mail all Promissory Notes to the current mailing address: P.O. Box 5692, Montgomery, AL 36103-5692**

- Return Excess Cash for 2002-2003 and forward to COD

- Return Excess Cash for prior programs years to the LOC

- Request Direct Loan Bulk Mail by calling the current number, 1-800-848-0979

- Call COD Customer Service Center using the current telephone numbers

New COD Customer Service Center

SFA's new COD Customer Service Center integrates customer service for the Direct Loan and Pell Grant Programs for all award years.

All schools and Direct Loan PLUS borrowers continue to call the current Direct Loan and Pell Grant Customer Service numbers. There is no change in telephone numbers:

- Pell Grant Customer Service 1-800-474-7261

- Direct Loan School Service 1-800-848-0978

- Direct Loan Applicant Service 1-800-557-7394

All calls are routed to the new COD Customer Service Center. The COD Customer Service Center telephone system prompts the school to enter the award year the school is calling in reference to, and the call is routed to the proper Customer Service Center staff.

2002-2003 Direct Loan Technical Reference for Phase-In Participants

The Direct Loan Technical Reference for 2002-2003 is organized into the following four sections:

Overview

- Preface
- System Options
- Overview of Changes from 2001-2002 to 2002-2003
- Loan Origination Options
- Items to Consider in Choosing a System Option
- PC Requirements

Custom

- Custom Layouts
- Custom Edits
- Custom System Requirements
- Implementation Guide

Combination

- Combination Layouts
- Combination Edits
- Combination System Requirements

Appendices

- Direct Loan Reports
- Lists and Reports
- Miscellaneous
- Direct Loan Forms

Important Telephone Numbers

The U.S. Department of Education (ED) Direct Loan Operations Staff is available to answer Direct Loan operations and procedure questions from 8:00 a.m. - 5:00 p.m. (ET), Monday through Friday. They can be reached at:

202/377-3150

Questions regarding this technical reference should be directed to CPS/WAN Technical Support at:

800/330-5947

Questions regarding the Implementation Guide should be directed to:

800/848-0978

For additional help lines, please visit Sources of Assistance for Schools located at **SFAdownload.ed.gov**.

All schools should read this Overview section of this technical reference. It contains important phone numbers to call for assistance, information to help you choose how you want to participate electronically in the Direct Loan Program, and what is new for 2002-2003.

A Table of Contents and Index are provided for your reference.

System Options

The U.S. Department of Education gives you maximum flexibility in fashioning a system solution that best meets your institution's needs and loan origination option. The three system options are:

1. Custom System

   You have the option of developing a system to support all the necessary tasks required to participate in the William D. Ford Federal Direct Loan program, purchasing a software package from a third party or contracting a third-party servicer.

   If you choose to use a custom system, read Custom Sections 1, 2, 3, 4, and the Appendices thoroughly. They provide you with essential record layouts, system edits, and system requirements pertinent to building your own system. An Implementation Guide for 2002-2003 is provided in Section 4.

2. Combination EDExpress/Custom System

   You can choose to use a portion of the functions provided by EDExpress in conjunction with external systems or software from another vendor. EDExpress allows you to import data captured in other on-campus systems (for example, a financial aid packaging system). Also, it enables you to export data from the EDExpress database needed by other on-campus systems (such as the institution's business office).

   If you choose to use a combination of systems, read the Combination Sections 5, 6, 7, and the Appendices thoroughly. These sections provide you with essential record layouts, system edits, and system requirements pertinent to using a combination of systems.

3. <u>EDExpress</u>

    EDExpress is a comprehensive financial aid management system provided at no cost by the U.S. Department of Education. It is a student-based system that allows you to perform functions, such as processing Federal application data, including loading and printing Institutional Student Information Records (ISIRs) received electronically from the Central Processing System (CPS). It also computes student award packages, maintains funds, tracks file documents, generates reports, establishes loan origination records, prints promissory notes, manages disbursement data, reconciles funds, and reports Pell Grant payment data. EDExpress supports all the necessary tasks required to participate in the William D. Ford Federal Direct Loan Program.

Overview of Changes from 2001-2002 to 2002-2003

The table below provides an overview of Direct Loan changes made from 2001-2002 to 2002-2003. The first column provides a description of each change. The descriptions are organized by the following three categories: Removed, Added, and Modified. The second column indicates if the change affects EDExpress or Combination Systems. The third column indicates if the change affects Custom Systems or Mainframe Systems.

Description	EDExpress/ Combination Systems	Custom/ Mainframe Systems
Removed		
Permanent Address Change Date, Local Address Change Date, Borrower's SSN Change Date and Borrower's Date of Birth Change Date fields from the Loan Record and replaced with filler. In EDExpress, these same fields are available on the Demo tab. EDExpress will not export these change date fields to COD.	X	X
Borrower's Driver's License Number and Driver's License State from the Loan Record and replaced with filler. In EDExpress, these fields are still available via Entry and the External Add process, but will not be exported to COD.	X	X
Functionality to display and print Direct Loan Record Layouts within EDExpress with the exception of the User Defined External Export.	X	
Entrance Interview edit from PLUS Loans in EDExpress.	X	
School Status Code, Loan Identifier Status, Disbursement Number Status, Transaction Date Status, and Sequence Number Status from the Disbursement Acknowledgement Record and replaced with filler.	X	X
Loan Detail Exception File Export	X	X
Added		
MPN Type to the MPN/PLUS Promissory Note Acknowledgement to indicate either an electronic or paper note.	X	X
COD generated Disbursement Sequence Number (91-99) to the Disbursement Acknowledgement, batch type SP, for Payment to Servicer transactions.	X	X

Description	EDExpress/ Combination Systems	Custom/ Mainframe Systems
Added (Continued)		
Process to transmit files to schools of the borrowers who have successfully completed entrance interview counseling.	X	X
Process to transmit files from Servicing to schools indicating the borrowers who have completed exit counseling on the Servicing Web site.	X	X
Process for Servicing to notify COD of borrowers who are pending bankruptcy or have discharged loans. This information is used for processing loan limits or disbursements.		X
Vendor Software Version number to the Header Record for all batch files being exported to COD. This 9-character field in the header record is left justified, alphanumeric. The format for EDExpress shall be: EXP8.1	X	X
Functionality to process disbursement records dated 7 calendar days in the future.	X	X
Option to print Parent Borrower address labels from EDExpress.	X	
Functionality to also save a loan record when originating a loan within EDExpress.	X	
Academic year dates and loan period dates to the EDExpress External Import Add file providing the capability to generate disbursement profiles through the external import process.	X	
Option to delete an actual disbursement record prior to and during the save process in EDExpress.	X	
Predefined query in EDExpress for Change Batch.	X	
Loan Eligibility List report to EDExpress to assist schools in identifying overawards and to investigate loan limit issues.	X	
Functionality to EDExpress to indicate when a loan field has been updated and track and display when the update is accepted by COD.	X	

Description	EDExpress/ Combination Systems	Custom/ Mainframe Systems
Added (Continued)		
Functionality to EDExpress to provide the ability to import prior year data from all Direct Loan setups.	X	
"S" Signed and "P" Printed as valid values for the MPN Status on the EDExpress External Import Add record.	X	
"P" Printed as a valid value for the MPN/Promissory Note Status for the EDExpress External Change Process.	X	
Modified		
Loan Origination Record and Rebuild Origination Detail Record layouts to replace the Disbursement Anticipated Percentage fields and the Loan Amount Requested field with filler.	X	X
Process of saving and storing the student's local address fields. If the student's local address is blank, the LOC stores blank.		X
Process to send COD Booking notifications. Booking Notification is sent by COD for the first disbursement of a loan. Booking Notifications are NOT sent for each subsequent disbursement or adjustment.	X	X
Disbursement Acknowledgement layout to replace Field #14 - School Code Status, Field #15 - Loan Identifier Status, Field #16 - Disbursement Number Status, Field #18 – Transaction Date Status, and Field #19 - Sequence Number Status with filler.	X	X
DLSAS and 732 reports are combined into one report, the SAS. This report contains all data elements from both reports. For EDExpress, the combined SAS is removed from the DL module and included in DL Tools.	X	X
Loan Limits edits at COD are not based on overlapping academic years.		X
Entrance Interview Flag in EDExpress to an 8-character date field. The Entrance Interview Date continues to be updated on the Demo tab but also displays on the Disbursement tab.	X	

Description	EDExpress/ Combination Systems	Custom/ Mainframe Systems
Modified (Continued)		
Keystrokes in EDExpress when saving a loan record. No longer are you required to click "OK." Instead a message displays confirming the save process has occurred and no action is required by user.	X	
Direct Loan Disbursement Setup in EDExpress to default the assumed school code from DL System Setup into individual Disbursement Profiles.	X	
Direct Loan School Code field on the Loan tab in EDExpress to display only.	X	
Manifest title in EDExpress to indicate whether the manifest is for Subsidized/Unsubsidized loans or PLUS loans.	X	
ISIR import into the DL module of EDExpress to include the updating of the Default/Overpayment field on the Loan record.	X	
Anticipated List report in EDExpress to print gross, fee, interest rebate, and net amounts and to provide the option to print both Corresponding Actuals and Pending Actuals.	X	
Actual Disbursement List report in EDExpress to include Net Disbursement Totals per student.	X	
School/COD Loan Totals List report in EDExpress to provide the option to only print records with a difference greater than zero.	X	
The Status Measurement Tools in EDExpress renamed Status List Report and includes the Credit Decision Status.	X	
Borrower's Date of Birth date range to 19000101 to 19941231. The valid date range for EDExpress is modified to match the ISIR 19020101 to 19991231.	X	X

Loan Origination Options

The following loan origination options are available to your school under the Direct Loan Program:

Option 1:   Option 1 schools are responsible for all the functions associated with the Direct Loan Program except for requesting drawdowns. The Loan Origination Center performs the drawdown requests. Specific borrowers are identified for each drawdown request on the Anticipated Disbursement Listing. The Actual Disbursement Roster displays the amounts a school credits to a borrower's account.

Option 2:   Option 2 schools are responsible for performing all functions associated with the Direct Loan Program.

Standard Origination: Standard Origination schools are responsible for performing all functions associated with the Direct Loan Program except for requesting drawdowns (see Option 1) and printing promissory notes. The LOC prints promissory notes and forwards the notes to the borrowers. The borrowers return promissory notes directly to the LOC.

Items to Consider in Choosing a System Option

Loan Level Volume: How large is the loan volume at your institution?

Available Resources: How much of the following resources are available for the Direct Loan system: staff, data processing resources, equipment, and money?

Existing Systems: What existing systems are in place and how easy is it to integrate the Direct Loan system?

Time Constraints: Is there enough time available for a Direct Loan system to be developed?

Campus Communications: Are there existing means of communication between offices involved in the Direct Loan system? These offices could include financial aid, registrar, and bursars.

Video: *Implementing a Custom Direct Loan Processing System*. This video examines the options available for implementing the Direct Loan Program. This video is available by calling the Direct Loan Operations Staff or 800/4FED-AID (800/433-3243).

If you participate in the Electronic Access of Information with EDExpress, the Department of Education provides personal computer (PC) software designed to manage financial aid processing, including the Direct Loan Program. Modules in EDExpress include Application Processing, Packaging, Direct Loan, Pell Payments, and a stand-alone module, Direct Loan Tools. The remainder of this section describes the hardware and interface requirements of the Combination EDExpress/Custom System option.

PC Requirements

Beginning January 1, 2002, for the 2002-2003 processing year, the Department of Education's designated electronic processes require participating institutions to meet the hardware and software requirements that appear below. When reviewing these updated specifications, you should be aware that capacity requirements (processor speed, RAM, hard drive storage, etc.) are greatly affected by specific factors at your institution, including which SFA functions your institution uses, the number of records processed, and institutional database interfaces.

- IBM or fully IBM compatible PC

- 800 MHz Pentium Processor or comparable

- 128 MB RAM or more

- 20 GB hard drive or more

- 56K modem (that meets or is upgradable to V.90 standard)

- 3.5"/1.44 MB Diskette Drive

- Monitor and video card capable of Super Video Graphics Adapter (SVGA) (800x600) resolution (small fonts only) or higher*

- Windows 95 Keyboard with Microsoft compatible mouse

- Laser printer capable of printing on standard paper (8 ½" x 11")

- 24x CD-ROM Drive or higher with sound card

- 32-bit operating system (Microsoft Windows 98, Microsoft Windows NT 4.0, or Microsoft Windows 2000)

- Internet Service Provider (ISP) that supports 56K modem connection or higher

- Browser Requirements:

  - Internet Explorer v4.01 Service Pack 2 or higher

  - Netscape Navigator v4.73 or higher

- Supported Networks: Windows NT or Novell Netware

- Dedicated phone line

- 3.5" high-density double-sided diskettes

* EDExpress is designed in SVGA. You may use a higher resolution than SVGA at your own discretion without adverse impact on EDExpress.

Optional Items to Consider

The following items are recommended as additional tools to assist you in managing and protecting your financial aid data:

- Backup system (for example, a tape backup system) to store your data.

- Power supply backup or surge protectors.

- Phone line surge protector.

- Virus scan software.

Note: A backup of EDExpress should be performed on a regular basis. Make sure your backup can be restored. If you are running EDExpress on a local area network (LAN), refer to the EDExpress Installation Guide for LAN Hardware and Software recommendations.

Interface with other Software Systems on Campus

Your other institutional computer systems, used for registration or accounting, are potential providers of data to the EDExpress Direct Loan Software. EDExpress is designed to import data captured in these other systems that has been reformatted according to specifications provided in this technical reference.

Likewise, data in EDExpress is of potential use to other on-campus systems. Therefore, the system provides you with the ability to export data. File formats for the export files are provided so your institutional systems can be modified.

Custom Layouts

The following section covers the custom record layouts that are used for sending and receiving Direct Loan data to and from the Common Origination and Disbursement System (COD). The layouts are designed to help the user know what is required in each file.

Summary of Direct Loan Message Classes

The following tables provide a summary of the Direct Loan message classes, sorted by message class, and then sorted by data description.

**Indicates a manual edit

Promissory Note Reject codes are mainly handled through a manual process. However, reject codes "01" and "S" could be returned on the MPN/PLUS Promissory Note Acknowledgement. Once the Promissory Notes are received in the mailroom, they are manually inspected for missing or incorrect information. A generic checklist is used. If it is determined that there are errors or that information is missing, then the checklist will be marked in the appropriate blank for the error and returned to the school or borrower (Standard Origination schools). A copy of the Promissory Note Manual Reject Checklist is included in the appendix.

Custom System Requirements (For Phase-in Participants)

Processing Direct Loan Data—Direct Loan Processing Cycles

Direct Loan processing relies on electronic access of information. Phase-in Participants exchange loan information with the Common Origination and Disbursement System (COD) routinely. Schools should develop data production and transmission schedules around the various Direct Loan processing cycles. Batch processing of Direct Loan data occurs by data type. The following are the major processing cycles:

- Full Loan Origination Records

- Loan Origination Change Records

- Promissory Notes

- Request and Receipt of Cash

- Disbursement Records

Note: For 2002-2003, schools continue to send batches of promissory notes with paper shipping manifests to the following address:

> P.O. Box 5692

> Montgomery, AL 36103-5692

On acceptance of the Full Loan Origination Record, COD establishes the unique 21-character Loan Identification (Loan ID) and all loan information pertaining to that Full Loan Origination Record is stored on COD's database.

Note: In the COD process a Loan ID is referred to as an Award ID. For Phase-in Participants the term Loan ID will continue to be used. However, be aware that the terms Loan ID and Award ID are synonymous.

With the exception of Promissory Notes, COD rejects loan changes or disbursement records for a Loan ID for which an acceptable Full Loan Origination Record has not been transmitted to COD.

However, when an acceptable Full Loan Origination Record is not transmitted to COD, COD can accept and maintain a Promissory Note for the Loan ID. The Promissory Note is acknowledged to the school with a pending status. When the Full Loan Origination Record is submitted and accepted, COD returns a promissory note acknowledgement for the pending promissory note.

What Is a Booked Loan?

The goal of all Direct Loan processing is to book loans with COD. A "booked" loan implies that there is a binding obligation between the borrower and the U.S. Department of Education for the borrower to repay the loan. A loan is considered "booked" when COD has accepted the Full Loan Origination record, the Promissory Note, the first actual disbursement record, and an accepted credit check decision for a PLUS loan. This means COD has accepted them and transmitted them to the Direct Loan Servicing Center (DLSC).

At the time COD books the first actual disbursement, a booking notification is generated and forwarded to the schools. The booking notification simplifies the reconciliation process between the schools and COD. The booking notification contains the booking date for the loan and COD's total net booked loan amount. This booking date is the date COD passes the booked disbursement amount to the DLSC.

- The Disbursement Acknowledgement Message Class— DIOD03OP/Batch Type #B—is used to transmit the Booking Notification to the schools.

- Disbursement Activity type for the booking notification is:

  - L for the booking disbursement

New for 2002–2003: A booking notification is sent only for the first actual disbursement booked at COD. Subsequent disbursements and disbursement adjustments received at COD will not generate separate booking notifications.

Batch Processing and Batch Identifiers (Batch IDs)

All data exchanged between Phase-in Participants and COD must be in the required record layout format. Data must be sent to the Student Aid Internet Gateway (SAIG) for submission to COD in groups of like data types. Each data type has a specific record layout, that is, Full Loan Origination Records, Disbursement Records, and so forth. Therefore each record set is considered a separate batch type. Every batch must contain a header and trailer record (see Custom Layouts). The batch header contains a Batch ID that is unique to the export batch.

Note: Each Direct Loan batch is sent to SAIG with a Transmission Header and a Direct Loan Batch Header. It is most important that the Batch ID and the Message Class submitted in both of the header records are the same. If these data elements are different on the two header records, the Direct Loan detail records will not process correctly at COD. For more information regarding transmitting to the SAIG, see the SAIG Host Communication Guide at **www.SFAdownload.ed.gov**.

Schools should track Batch IDs on their systems. It is helpful to store the Batch IDs at a record level and at a batch level for each submission.

All Batch IDs transmitted to COD must have the same format and be 23 characters long. The first two characters are the Batch Type, which indicates the type of data included in the batch. The next character is the Cycle Indicator, which indicates the program year of the data included in the batch. The next six characters are the School Code, which indicates the Direct Loan School Number of the school sending the batch. The next eight characters are the Date Batch Created, which indicates the date on which the school created the batch. The last six characters are the Time Batch Created, which indicate the time at which the school created the batch.

Note: In the COD process Batch IDs are referred to as Document IDs. For Phase-in Participants the term Batch ID will continue to be used. However, be aware that the terms Batch ID and Document ID are synonymous.

The Batch Integrity Rule

COD returns an acknowledgement record for every Full Loan Origination Record, Disbursement Record, and Loan Origination Change Record that is submitted by the school. If a school submits a batch with 1,000 Full Loan Origination Records, COD returns an acknowledgement file corresponding to only those 1,000 Full Loan Origination Records. The acknowledgement file always contains the same Batch ID originally submitted by the schools. This rule applies for Full Loan Origination Records, Loan Origination Change Records, and Disbursement Records initiated by the school.

Note: In the COD process, an Acknowledgement is referred to as a Response. For the purposes of this technical reference, we will continue to use the term Acknowledgement. However, be aware that the terms Acknowledgement and Response are synonymous.

To expedite school processing, COD acknowledges Promissory Notes as they are accepted. COD returns an electronic file (DIPA03OP) containing the acknowledgements of all Promissory Notes. Unlike other batch types, batch integrity is not maintained by COD for Promissory Notes. Acknowledgements do not match one to one with paper manifests sent by the school.

Full Loan Origination Records

The Direct Loan Program requires Phase-in Participant schools in the Direct Loan Program to store loan data and submit Full Loan (Subsidized/Unsubsidized/PLUS) Origination Records to COD. Schools can establish a Direct Subsidized Loan and a Direct Unsubsidized Loan based on the student's eligibility. Participating schools may include a Federal Direct PLUS Application and Promissory Note for signature in award packages for the parents or guardians of eligible students. Once the Full Loan PLUS Origination Record is transmitted and accepted by COD, a credit check is performed on the parent or guardian borrower.

Schools create one loan record and a unique Loan ID for each new loan. For example, if a borrower has one Direct Subsidized Loan and one Direct Unsubsidized Loan, the school maintains two unique Loan IDs. The Full Loan (Subsidized/Unsubsidized/PLUS) Origination Record (DESF03IN/ DEPF03IN) is created from student/borrower demographic data and anticipated disbursement data.

When creating Full Loan Origination Records, it is strongly recommended that all custom users create loan sequence numbers (the last 3 digits of the 21-character Loan ID) beginning with 001, then 002, and so forth and not begin with 101.

Full Loan Origination Records contain anticipated disbursement amounts and anticipated disbursement dates. In the COD process disbursements have a Payment Trigger associated with them. Upon acceptance of a loan record, COD stores anticipated disbursements and sets the Payment Trigger appropriately.

Note: No action is required by Phase-in Participants to set or unset the COD Payment Trigger.

Submitting Full Loan Origination Records

The school transmits a Full Loan (Subsidized/Unsubsidized/PLUS) Origination Record to SAIG for transmission to COD for every loan it originates whether or not the school chooses to print the loan's Promissory Note or have COD print it. If the school requests that COD print promissory notes, the request is indicated in the Full Loan Origination Record. If the school prints the Promissory Note, the Full Loan Origination Record can be transmitted to COD before or after the student signs the Promissory Note. For Standard Origination schools, COD prints all Promissory Notes.

Full Loan (Subsidized/Unsubsidized) Origination Records are transmitted to COD under the message class DESF03IN. Full Loan PLUS Origination Records are transmitted to COD under the message class DEPF03IN.

Schools can perform credit checks for PLUS borrowers at their school by using the COD Web site. Schools have the option to submit credit check requests via the COD Web site or to submit Full Loan PLUS Origination Records to COD for COD to perform the credit check request.

Schools are given the capability to receive a credit decision through the interactive COD Web site. The COD Web site accesses an approved credit bureau and returns a credit acknowledgement to the school. The COD Web site displays the credit decision of approved (accepted) or denied (failed). The reason for a failed credit decision is not displayed.

When the school receives a failed credit decision from the COD Web site, it has the option to either submit the Full Loan PLUS Origination Record to COD (so that COD can send an endorser form to the borrower) or to originate the additional unsubsidized loan for the student. The Full Loan PLUS Origination Record must be sent to COD if the borrower requests an endorser.

The credit decision received from the COD Web site does not have to be forwarded via batch to COD. COD receives a simultaneous response from the credit bureau at the time the school performs the credit check. COD stores the credit decision and sends necessary letters to the borrowers.

Note: Certification must be kept at the school, indicating that the borrower has authorized the school to perform the credit check and also indicating whether or not the borrower wants an endorser in the case of a failed credit decision.

Receiving Full Loan Origination Acknowledgements

COD edits the Full Loan (Subsidized/Unsubsidized/PLUS) Origination Record to ensure it passes the editing requirements that have been established by the U.S. Department of Education. Full Loan (Subsidized/Unsubsidized) Origination Record Acknowledgements are transmitted to the schools under the message class DISF03OP. Full Loan PLUS Origination Record Acknowledgements are transmitted to the schools under the message class DIPF03IN. The acknowledgement files transmitted to the schools indicate the status of each Full Loan Origination Record (Field #4) and up to five reject reasons (Field #5) for each Full Loan Origination Record. For Full Loan PLUS Origination Records, the acknowledgement record also indicates whether the credit check is accepted or denied.

Note: COD is creating a Student Identifier composed of Social Security Number, last name and date of birth. The combination of these data elements is matched against CPS. If this match is unsuccessful on a subsidized or unsubsidized loan record a school receives a reject code of A9 – No eligible SSN, date of birth and last name combination match on CPS for student. When a school receives this error, the school should go to the COD Web site for assistance in how to resolve this mismatch. After the Full Loan Origination Record is accepted and acknowledged by COD, it should not be transmitted to COD again. Retransmitting causes a duplicate Loan ID rejection. If updates need to be made to the loan information on the record, a Loan Origination Change Record must be submitted to COD.

When a Full Loan Origination Record is rejected by COD, the school needs to re-submit the entire Full Loan Origination Record with the corrected information under message class (DESF03IN/DEPF03IN).

Note: If the error code fields are blank, there are no errors for an accepted origination record.

To reduce turnaround time for acknowledging Full Loan PLUS Origination Records, COD processes the credit check and acknowledges the PLUS loans within 24 hours of receipt at COD. If a credit decision other than "accepted" or "denied" is received, COD acknowledges the accepted PLUS loan with a "pending" credit check status.

Processing PLUS Credit Decisions Update (Override)

If the credit is originally denied on a Full PLUS Loan Origination Record and the borrower requests a subsequent credit check, an override, or submits an endorser addendum, COD returns a credit decision update to the school under the message class DIPC03OP. The Credit Decision indicates the result of PLUS loan credit checks on the parent borrower or endorser. For approved applicants, the school can proceed in disbursing funds to the student's account. COD sends further information and instructions directly to those applicants not approved for a PLUS loan on the basis of credit checks. COD has the option to override the credit decision after an initial denial. The PLUS credit checks can be updated at any time on the basis of the borrower submitting supporting documentation to COD or the credit reporting agency. Therefore, schools processing PLUS loans should expect to receive updated credit decisions in this acknowledgement file at any time from COD.

# Loan Origination Change Records

Submitting Change Records

After the Full Loan Origination Record is accepted by COD, modifications to the loan record are transmitted to COD via a Loan Origination Change Record (DESC03IN). Loan Origination Change Records only apply to Full Loan Origination data. Loan Origination Change records are not used to change actual disbursement data (see Disbursement Records). A list of the fields that can be changed and their Change Field Transmit Numbers are provided in the Export Change Table Values for Field Transmit Numbers Table in Section 1. Loan Origination Change Records are submitted to COD by Loan ID. Each record must contain the Loan ID, the change field number, and the new value for the field.

Corrected values must be left-justified within the 50-byte change value field. Numeric fields are left-justified and blank filled up to the maximum number of positions for that field.

Example:

The example below shows two changes submitted to a loan record whose Loan ID is 012345678U03G99999001: The record is changing the borrower's last name to SMITH and the first disbursement anticipated gross amount to $900. The layout below shows the contents of the change record excluding the Change Batch Identifier. Each change record is limited to 10 data element changes. For records with more than 10 changes to a single Loan ID, submit more than one change record for the Loan ID.

`{012345678U03G99999001  S007SMITH        S04000900        ...}`

Receiving Loan Origination Change Acknowledgements

COD edits the Loan Origination Change Records with the same or similar requirements as the Full Loan Origination Record data elements. COD returns an acknowledgement file (DIOC03OP) containing codes accepting or rejecting the change record (Loan Identifier Error Code) or each change field (Error Values 1–10). The school should resolve rejected change records or fields and resubmit another change record to COD. Refer to the Loan Origination Change Reject Codes in Section 2, Custom Edits, for a list of the reject codes.

Note: If the error code fields are blank, there are no errors for an accepted origination change record. Only the fields that are in error need to be corrected and resubmitted to COD.

Printing Direct Subsidized/Unsubsidized Loan Disclosure Statements

COD or the school is required to print a Disclosure Statement for every Full Loan (Subsidized/Unsubsidized) Origination Record. The Disclosure Statement is printed and mailed to the borrower 30 calendar days prior to the first anticipated disbursement date of the loan. However, schools have the discretion to print before the 30-day criteria.

Printing Disclosure Statements for Subsidized/Unsubsidized Loans

Options for Printing Disclosure Statements

For Program Year 1999–2000 loans, the option to print the Disclosure Statement is at the school level. Either COD or the school prints all the Disclosure Statements. The school can request to print the Disclosure Statements for 1999–2000 loans by calling its Customer Service Representative.

For Program Years 2000–2001 and forward, a field is included on the Full Loan (Subsidized/Unsubsidized) Origination Record to indicate who is responsible for printing the Disclosure Statement at the loan level. Schools can change the option by submitting a Loan Origination Change Record using Change Field Transmit Number S115 to COD.

A copy of the Disclosure Statement can be found in Appendix D.

The LOC is responsible for printing the Disclosure Statements for 2000–2001 loans that have more than 12 non-zero anticipated disbursements. The reason is that the Disclosure Statement used for 1999–2000 and 2000–2001 loans only accommodates up to twelve anticipated disbursements for the Subsidized and Unsubsidized loan on the front. The LOC prints anticipated disbursements 13–20 on the back.

When printing the Disclosure Statement, it is recommended to use Courier, 10 point, 12 pitch font.

Master Promissory Note with Multi-Year Functionality

The Master Promissory Note (MPN) is the only approved promissory note to process Direct Subsidized and Unsubsidized Loans for all schools. No changes are being made to MPN data elements.

The MPN ID prints on the MPN. This MPN ID identification number is used by COD to identify which loans are linked to a MPN. For printed MPNs for 2000–2001 and forward, the format of the MPN ID changed to use "M" as the MPN Indicator instead of "S" or "U" in the loan type code field.

The school prints a MPN based on the completed loan origination record. However, no dollar amount is printed on the MPN by the school or COD and only one MPN is used for both Subsidized and Unsubsidized loans.

A MPN must be printed by the school or COD and signed by the student borrower before disbursing a Direct Subsidized Loan or Direct Unsubsidized Loan. The MPN is a legal document requiring the borrower to repay the funds borrowed under the Direct Loan Program.

Multi-year use of the MPN applies to all four-year and graduate/professional schools that are not subject to an emergency action or limitation, suspension, or termination (LS &T) action per Direct Loan regulations. Any school with questions regarding eligibility may contact Direct Loan Operations.

Note: When processing 2002-2003 loan records, COD is aware of open MPNs processed by the LOC for program years prior to 2002-2003.

If a borrower is attending a school using multi-year functionality, the borrower may have only one open MPN on file at COD, for all subsidized and unsubsidized loans originated for program year 1999–2000 and forward. For example, the open MPN at COD can be a MPN processed for year 2000–2001. The 2000–2001 loans and forward are linked to this open MPN. Since multiple loans are linked to a MPN, the promissory note print sequence number is no longer necessary. If a school is using multi-year functionality, that school must have a confirmation process in place. Schools are also allowed to adjust upward and downward within an academic year without having to originate a new loan.

An open MPN on file at COD is assigned to the borrower and is not limited for use at a Direct Loan school. Therefore, a school using multi-year functionality can use any MPN accepted by COD.

All loans for a student are linked to the same MPN across schools and academic years. The Social Security Number (SSN), date of birth, and last name or first name on the Full Loan Origination Record must match the SSN, date of birth, and first name on the MPN. If there are any differences, COD is not able to link the Full Loan Origination Record to the MPN.

If a school is a single-year option school, NOT eligible for multi-year functionality, a new MPN must be generated each academic year for each borrower. A single-year school must use a MPN generated at or for that school only. A single-year school can link multiple subsidized and unsubsidized loans for the same academic year, for the same student, to the same MPN. The academic year start and end dates must be the same on all loan records linked to a specific MPN.

On the Full Loan Origination Record Acknowledgement, there is a MPN Indicator field for Subsidized/Unsubsidized loans. If the LOR has been linked to a MPN at COD, the MPN Indicator is populated with a "Y". LORs not linked to a MPN on file at COD have the MPN Indicator populated with an "N".

An open MPN is valid for up to ten years from the later of the date received or the first anticipated disbursement if an actual disbursement is made for any associated full loan origination record. If a student wishes to close a MPN, he or she must provide a request in writing to the Direct Loan Servicing Center or the school. If the closed notification is received at the school, the school must forward all original documentation to COD. COD, upon receipt of the original close MPN notification, closes the MPN. Once a MPN is closed, no new loans can be linked to it. A new MPN must be generated if new loans are originated. However, all disbursements and booking activities for the loans already linked to the closed MPN continue to be processed by COD.

Options for Printing Master Promissory Notes

Option 1 and Option 2 schools have two choices for printing MPNs. They may preprint available borrower and school information on the Master Promissory Note and provide the document to the borrower for review, completion, and signature, or they may request that COD print the Master Promissory Note.

The U.S. Department of Education provides copies of a standard, approved Master Promissory Note to participating schools. A copy of the Master Promissory Note can be found in Appendix D. However, the school may create its own form as long as it is identical in format and wording to the one provided by the U.S. Department of Education. The format must be approved by SFA. For more information on the approval process schools should call COD at 800-848-0978.

A minimum of two copies must be printed—one as the borrower copy and the other as COD copy. Additional copies can be printed, if desired, as school copies.

When mailing the MPN, we recommend the use of a number 10 business window envelope.

When printing the MPN, we recommend the use of Courier, 10 point, 12 pitch. Other settings may cause delays in the processing of the school's MPNs. Use the following specifications to develop a printing system. They are similar to those used to develop the EDExpress Direct Loan Software.

Master Promissory Note Print Specifications

The Master Promissory Note (MPN) has a unique 21-character MPN Identification Number (MPN ID). No dollar amount is printed on the MPN, and one note can be used for multiple subsidized and unsubsidized loans.

Following are the specifications for printing the variable data on the MPN:

Note: The following fields correspond to numbered data elements on the preprinted paper MPN.

Printing the Federal Direct PLUS Loan Application and Promissory Note

The Federal Direct PLUS Loan Application and Promissory Note (PLUS Promissory Note) requests demographic information from the parent borrower, as well as references for the collection cycle. It also includes a request for information from the student and school.

Once a loan origination record is established, a school may either print a PLUS Promissory Note with the pre-supplied information or provide the borrower or student with a blank form. The parent borrower and the student review, complete, and sign the application.

As completed PLUS Promissory Notes are received from students or parents, enter the application data into the Direct Loan System and continue with the process explained above.

The U.S. Department of Education provides copies of a standard, approved Federal Direct PLUS Promissory Note to participating schools. The current note expires 12/31/2001 and an update note is forthcoming.

A school may create its own form as long as it is identical in format and wording to the one provided by the U.S. Department of Education. The format must be approved by SFA. For more information on the approval process schools should call COD at 800/848-0978.

When printing the PLUS Promissory Note, we recommend the use of Courier, 10 point, 12 pitch. Other settings may cause delays in the processing of the school's notes.

A minimum of two copies must be printed, one as the borrower copy and the other as COD copy. Additional copies can be printed, if desired, as school copies.

When mailing the PLUS Promissory Note, we recommend the use of a number 10 business window envelope.

Use the following specifications to develop a printing system. The specifications are similar to those used to develop the EDExpress Direct Loan Software.

Promissory Note Paper Manifests

Creating Promissory Note Paper Manifests

All promissory notes must be mailed and accepted by COD before the loans are "booked." The hard copy promissory notes must be accompanied by a paper manifest that lists the borrower's name and identification number for each promissory note in the shipment. A paper certification to be signed by an official at the school is provided on the paper manifest. Subsidized/Unsubsidized Master Promissory Notes and PLUS Promissory Notes must be batched separately and a separate paper manifest created for each batch. Additionally, separate batches (manifests) must be created for each DL school code. After processing the manifest is returned to the school address on the promissory note unless the school indicates another address on the manifest.

The format for the Subsidized/Unsubsidized Master Promissory Note paper manifest and the PLUS Promissory Note paper manifest are provided in Appendix D.

Software developers must adhere to these formats. Additionally, the following guidelines must be performed:

- The Report Date (in MM/DD/YYYY format) and the Report Time (in HH:MM:SS format) indicate when the manifest was produced.

- A page number starting with 1, incremented by 1, for each subsequent page printed.

Records are printed in last name alphabetical order, or in numerical borrower ID order. The borrower's name is printed in last name, first name, and middle initial order. The Loan ID associated with the borrower's name is printed.

The number of notes for shipping indicates the number of promissory notes covered by the paper manifest. It is only printed on the final page of the paper manifest.

The certification statement, DL school code, school name, signature block, and FAA (Financial Aid Administrator) name are only printed on the last page.

Receiving MPN/PLUS Promissory Note Acknowledgements

COD continues to return an electronic file (under message class DIPA03OP) containing the acknowledgement of all promissory notes. Unlike other batch types, batch integrity is not maintained by COD for promissory notes. Acknowledgements do not match one to one with paper manifests sent by the school.
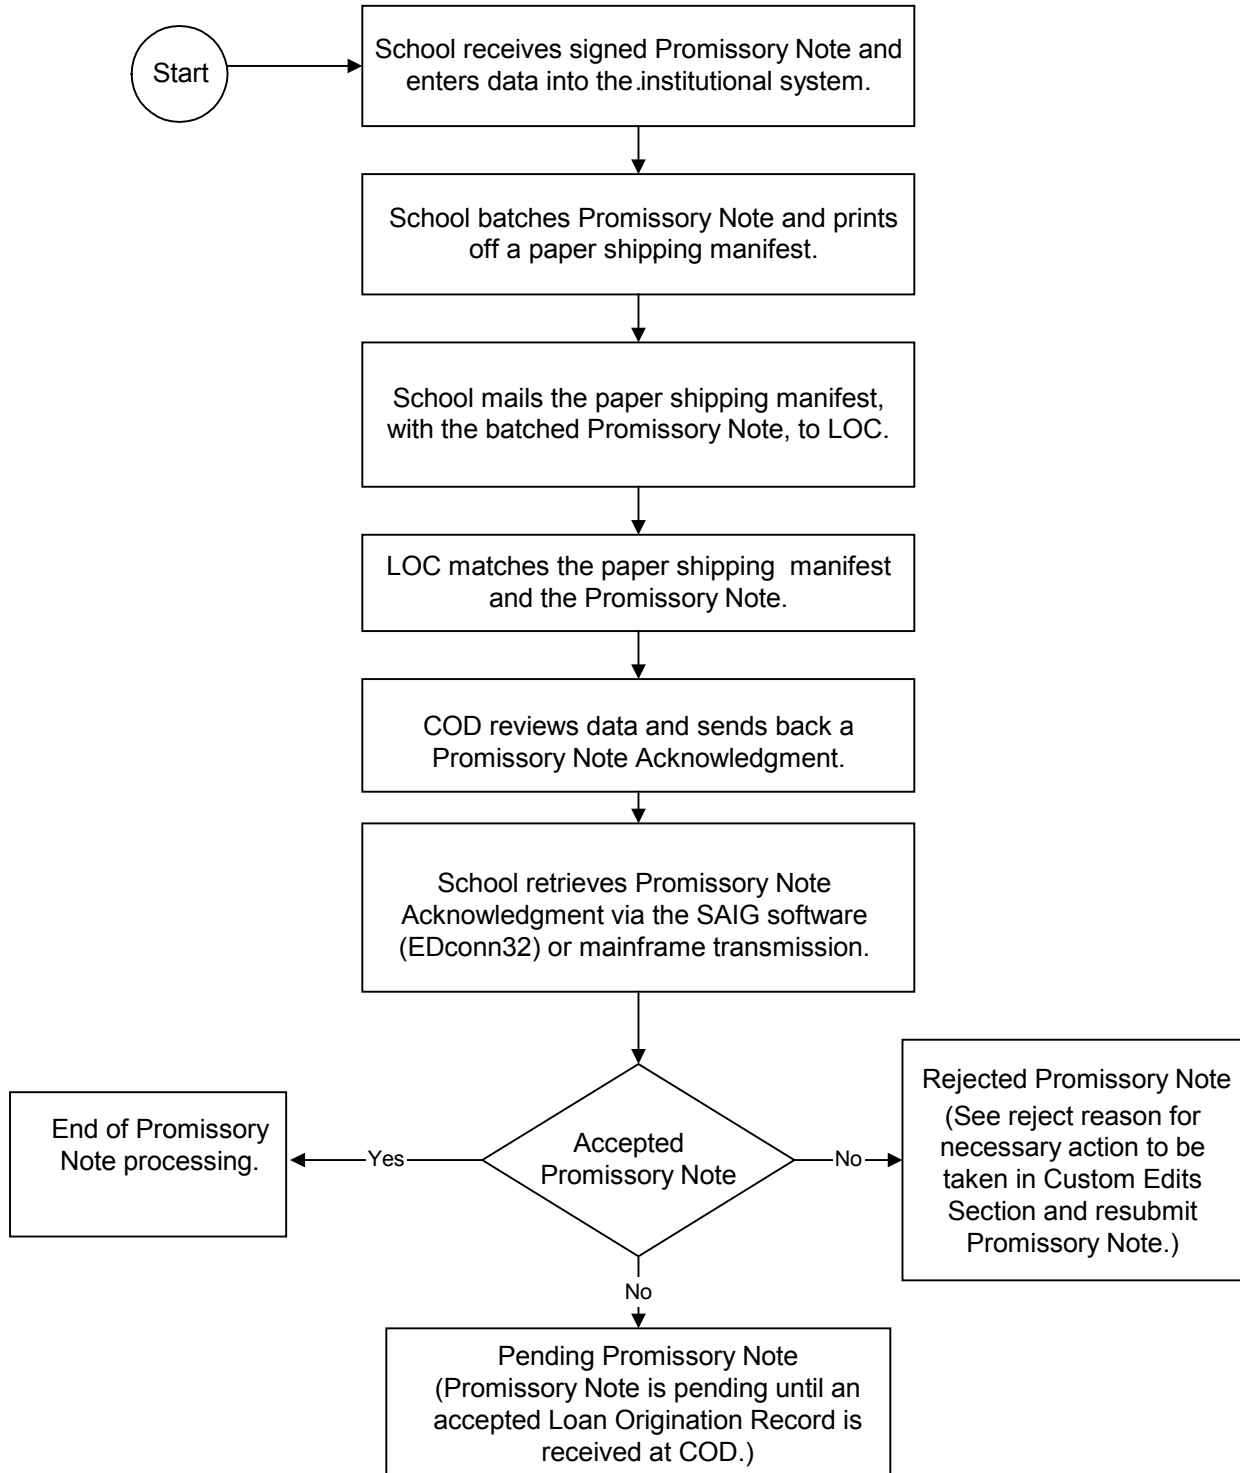

The DIPA03OP file contains a code in field 4 (Promissory Note Status) that returns one of three values: A (Accepted), R (Rejected), or X (Pending). The three categories of reason codes are associated with the actions the school is required to take to resolve the rejected notes.

Promissory Note Rejects

These codes indicate why the promissory note was rejected. A new promissory note must be printed with corrected data. The note must be resubmitted and included in a subsequent batch.

Promissory Note Reject codes are mainly handled through a manual process. However, there are two electronic error codes that may be returned on a Promissory Note Acknowledgement. These error codes are "01" and "S". Once the Promissory Notes are received in the mailroom, they are manually inspected for missing or incorrect information. A generic checklist is used. If it is determined that there are errors or that information is missing, the checklist is marked in the appropriate blank and returned to the school or borrower (Standard Origination schools). A copy of the checklist is included in the Appendix D.

Promissory Note Anticipated Disbursement Values

Promissory note anticipated disbursement values (DIPA03OP, fields 6–25) are returned to all schools. If amounts are unchanged, these fields are returned with the amounts indicated in the Loan Origination Record.

Option 1 and Option 2 schools may recalculate and store amounts changed on the promissory note before submitting the note to COD.

Funds Drawdown

Tracking Cash and Receipt of Cash

Note: See Custom Overview Section for definitions of Standard Origination, Option 1, and Option 2 schools.

Tracking Cash

Schools must maintain an accurate cash balance record by tracking fund drawdowns and return of excess cash transactions. A Receipt of Cash transaction is a result of Direct Loan funds being transferred to the schools' account from the Financial Management Service (FMS). An Excess Cash transaction is a result of funds being returned to COD as directed by cash management regulations. Each transaction should be stored as a unique record. Multiple transactions should not be considered in the aggregate.

Receipt of Cash

As the funds are received, the school needs to track the receipts of cash. The school must create one cash receipt record for each drawdown received from the FMS and must assign a year indicator. Cash receipts (drawdowns) cannot be combined even if received on the same day.

Return of Excess Cash (Return of Drawdown Funds)

A school must return undisbursed drawdown funds to the U.S. Department of Education. The school can either return undisbursed funds by check to COD or transmit funds by wire through the Federal Reserve Bank. The school must also assign a year indicator. The school must create one return of excess cash record for each check or wire transfer returned. Return of excess cash transactions can be combined if returned on the same day.

Note: For more details on Tracking Cash, Receipt of Cash, and Return of Excess Cash see the Direct Loan School Guide and the appropriate Direct Loan Bulletins.

Disbursement

For Option 2 schools, once the school has an acknowledgement that a completed and signed promissory note is on file, and the borrower meets eligibility requirements, the school can make a loan disbursement to the student or parent (either by check or by crediting the student's account). However, for Standard Origination and Option 1 schools there must be an accepted promissory note on file at COD.

Schools submit a file (DESD03IN) containing disbursement activity by Loan ID to SAIG for transmission to COD. Each actual disbursement transaction is considered by COD to be a unique transaction and is treated as such for reconciliation purposes. For example, once a disbursement is submitted to COD, any modification to the disbursement amount requires another disbursement record. Schools should store each transaction submitted to COD on their databases.

COD edits the information against the loan origination record data stored on its system. See the Disbursement Reject Codes table in this guide for a list of COD edits.

In the COD process disbursements have a Payment Trigger associated with them. Actual disbursement records accepted by COD are stored with the appropriate Payment Trigger.

Note: No action is required by a Phase-in Participant to set or unset the COD Payment Trigger.

If an Actual Disbursement Record is submitted within the required timeframe of or after the disbursement date, the record moves on to either release funds available to a school via drawdown or FedWire/ACH or substantiates money already made available to the school. The specified time period for Direct Loans is up to seven days prior to the disbursement date. COD returns an acknowledgement (DIOD03OP) to the school indicating whether or not each disbursement record is accepted. This acknowledgement is the same record layout as the disbursement export file. The school may receive a record from COD indicating that the disbursement record is rejected. The school needs to resolve the reject and retransmit it to COD.

A school can adjust individual disbursement and/or Loan Amount Approved to zero. This provides the schools more flexibility by simply recording and sending COD an upward adjustment if the loan or disbursement is to be re-activated. Disbursement type "Q", Adjusted Disbursement Date, is for making adjustments to the actual disbursement date. The "Q" transaction can only be used after the school has sent an actual disbursement and received the disbursement acknowledgement from COD.

Disbursement activity type "L" assists in determining when a disbursement has booked at COD. This record type is returned in the #B batch type.

Activity type "P" is used to indicate payments received from the borrower at Servicing within 120 days of disbursement. If the borrower makes a payment to Servicing, this is indicated by a negative amount. If there is a reversal of the payment, this is indicated by a positive amount. This record type is returned in the SP batch type.

Disbursement Record Types

The five kinds of Disbursement Records are as follows:

Disbursement	Disbursement Activity D (#H)
Adjusted Disbursement Amount	Disbursement Activity A (#H)
Adjusted Disbursement Date	Disbursement Activity Q (#H)
Booking Disbursement	Disbursement Activity L (#B)
Payment to Servicing	Disbursement Activity P (SP)

A Disbursement record contains data for the initial disbursement for a given disbursement number.

An Adjusted Disbursement Amount record is transmitted to COD when the amount of a disbursement needs to be increased or decreased. This includes disbursements being adjusted to zero. Refer to the DL School Guide and appropriate DL Bulletins for further information.

An Adjusted Disbursement Date record is transmitted to COD when the date of an original disbursement needs to be changed.

A Booking Disbursement notification is transmitted to the school when the loan books at COD.

A Payment to Servicing Transaction is transmitted to the school when COD receives notification from Servicing that a payment was sent to Servicing by the borrower within 120 days of disbursement.

Process Loan and Disbursement Adjustments to $0 (Making a Loan Inactive)

Adjusting loans to $0 occurs for a variety of reasons:

- Student is no longer attending school

- Student or parent decides not to borrow after a loan has been originated

- School needs to change the Loan Origination Fee

- Student or parent no longer wants, or is entitled to, the entire loan or a specific loan disbursement

To adjust an entire loan to $0 perform the following:

- Reduce actual disbursements down to zero

- Send a Loan Origination Change Record adjusting the Loan Amount Approved to $0

All activity can be generated and transmitted on the same day.

The anticipated disbursement amounts are reduced down to zero by COD when the Loan Amount Approved is changed to zero.

When an entire loan is adjusted to $0, actual disbursement(s) are already made, and the borrower returns the money within 120 days of disbursement, all principal and fees are eliminated. This is also done to comply with regulatory or statutory requirements. Likewise, when a disbursement is adjusted to $0, the principal and fees for that disbursement are eliminated. If an individual disbursement is adjusted to $0, that change is sent as a disbursement record.

Adjusting a Loan to $0 to Change the Loan Origination Fee

- Adjust any actual disbursement to $0. Send a Loan Origination Change Record adjusting the Loan Amount Approved to $0. (The fee can also be adjusted at this time. Sending the fee in this step is optional if it is sent on the second step in the specified order). These records can be processed in the same cycle.

- Send the change record to adjust the fee. Adjust the entire loan back up. (The change for the origination fee must be the first change on the change record to process the fee correctly. If you have multiple change records being transmitted, the origination fee change must be the first change on the first change record.)

Timing

For Option 1 and 2 schools, disbursement records are sent after the school has received a signed valid promissory note from the borrower or a valid MPN on file at COD. For Standard schools, disbursement records are sent to COD after an accepted promissory note acknowledgement is received for the borrower. Schools should ensure that the disbursement record is accepted on a disbursement acknowledgement before transmitting change records for adjustments to $0.

Sequence of Disbursement Records

COD sorts and processes disbursement records by Loan ID, Disbursement Number, and Disbursement Sequence Number. Remember that disbursement activity must be submitted to COD within 30 days of the transaction date.

Confirmation Flag (For Schools in the Confirmation Pilot)

Schools participating in the Confirmation Pilot receive authorization from the borrower for the disbursement of funds under a Direct Subsidized Loan or a Direct Unsubsidized Loan. A Confirmation Flag exists on the Disbursement/Disbursement Acknowledgement. This flag indicates that the borrower at the school has confirmed the disbursement.
Disbursement Acknowledgements from COD

COD returns one acknowledgement record for each Disbursement Record submitted by the school. Each record in the export file is acknowledged in the import file. The import file header contains the batch ID of the export file. The acknowledgement record is in the same format as the Disbursement Record. If COD calculates different amounts than reported by the school, these amounts are returned in the acknowledgement. If there is no change to the amounts, these fields are returned blank in the DIOD03OP file.

Note: The disbursement acknowledgement date is always blank on the disbursement record (DESD03IN) going to COD. Please do not zero fill.
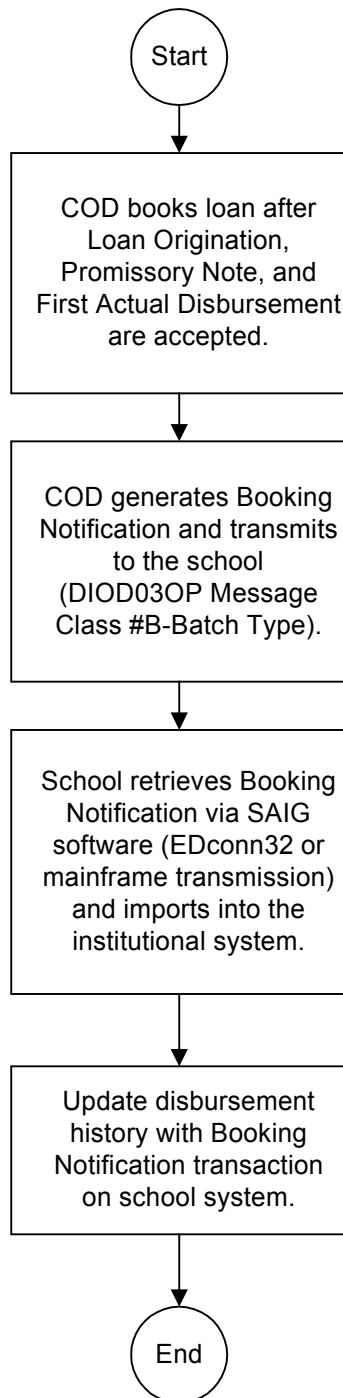

The disbursement acknowledgement date is provided by COD in the disbursement acknowledgement (DIOD03OP) transmitted from COD.

School Reconciliation

Schools must reconcile the school's Direct Loan records on file at COD with the school's internal Direct Loan records. This process is called School Reconciliation and should be performed by the school on a monthly basis. For more details, see the Direct Loan School Guide.

2002–2003 School Account Statement (SAS) for School Reconciliation

COD initiates the reconciliation process. On a monthly basis, COD sends a School Account Statement (SAS) to each school (designated by DL school code) in the Direct Loan program. This electronic file may be imported and formatted for printing to look similar to a bank statement. The SAS reports COD data on cash balances, cash details, booked loans, and booked or unbooked disbursement transactions. Six types of reconciliation data are sent to the schools: Year-To-Date Cash Summary, Year-To-Date Disbursement Summary by Loan Type, Monthly Cash Summary, Monthly Disbursement Summary by Loan Type, Cash Detail, and Loan Detail. Each school is responsible for reviewing the monthly statement to ensure the accuracy of the data. This data must also be reconciled to the school's internal student account records and bank records.

Software Tool for School Reconciliation– DL Tools

A software tool to assist you with the reconciliation process is DL Tools. This tool replaces the Optional Loan Detail Exception File. Starting with program year 2002-2003, the functionality to import the 2002-2003 SAS file in DL Tools Version 2.0 is available. With this tool all schools can import the SAS file and run comparisons between the loan and disbursement data on file at COD and on your local school database. In addition, this software tool can also be used to track drawdowns and returns of excess cash at your school and compare to the records at COD.

Note: For 2001-2002, DL Tools Version 1.0 allows all schools to run a comparison between the 732 Report and the school's database. This software is available at **www.SFAdownload.ed.gov.**

School Report Options

Users of DL Tools should request COD to send the SAS files in a fixed length file without a header record. This format option plus other report options for all schools are fully described in the Implementation Guide, Section 4.

Resolving Discrepancies

These two processes, the SAS and DL Tools Version 2.0, assist you in reconciling your school data with the data at COD. When discrepancies are found, you should go back and ensure that all origination, promissory note, and disbursement processing is completed. Remember:

- COD's cash balances only report on "Booked" data for the month reported in the SAS. Booked status on your school system can only be updated by the booked loan transaction.

- Export all pending data batches for origination records, promissory notes, and disbursements.

- Import all pending acknowledgement batches to update the accepted status and booked status flags on your school's system.

- EDExpress and Combination schools find it helpful to use the Status List to resolve discrepancies on the SAS.

The SAS Record Layouts appear in Section 1, Custom Layouts. See Appendix A for a set of sample reports.

Up-front Interest Rebate Implementation for 2001–2002 and Forward

This section includes the business rules and calculations for gross disbursement, loan fee, net disbursement, and interest rebate amounts.

Business Rules:

- An up-front interest rebate amount is calculated at the disbursement level by the schools for each Direct Subsidized, Direct Unsubsidized and Direct PLUS loan.

- The up-front interest rebate percentage that is in effect starting with 2001–2002 Direct Loans is 1.5 percent.

- The current method to calculate individual Gross Disbursement Amounts and the current rounding logic remain as is. The variance is still applied to the last anticipated disbursement.

- The method to calculate the Net Disbursement Amount and Interest Rebate Amount is new. The new calculations are explained below.

- The resulting Loan Fee Amount and Interest Rebate Amount are truncated. Truncated means the cents are removed and the remaining whole dollar is the amount to use. Do not round up or down.

- When calculating the Combined Fee/Interest Rebate Amount and the Loan Fee Amount, take all results out 3 decimal places to ensure consistent results in automated tools such as MS Excel.

- Schools send to COD the gross disbursement amount, loan fee amount, and net disbursement amount for anticipated and actual disbursements. Additionally, they are sending the interest rebate amount for both anticipated and actual disbursements.

Gross Disbursement Calculations

Gross disbursement calculations do not change with the interest rebate implementation.

When determining gross disbursement amounts for a loan, dollar figures are rounded to the nearest dollar and all disbursements are equal with the exception of the last disbursement, in some cases. This is due to any variance being applied to the last disbursement.

When computing gross disbursement amounts, use the following specifications:

Step 1: Individual disbursement amount is Loan Amount Approved divided by the total number of disbursements. If necessary, truncate any positions that exist past 2 decimal places.

Step 2: Round the individual disbursement amount. Rounding occurs at the 1st and 2nd decimal places to the nearest dollar.

If the 1st and 2nd decimal places are 50 or greater, increment the 1st digit to the left of the decimal sign by one.

If the 1st and 2nd decimal places are less than 50, do not change the 1st digit to the left of the decimal sign.

Step 3: To determine the amount of the last disbursement, multiply the individual disbursement amount by the number of disbursements.

If the sum of the disbursements is greater than the Loan Amount Approved, subtract the difference from the last disbursement.

If the sum of the disbursements is less than the Loan Amount Approved, add the difference to the last disbursement.

Example 1: Determining Gross Disbursement Amount for two disbursements

Loan Amount Approved: $2625

Step 1: 2625 divided by 2 = 1312.5000

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore 1312.5000 truncates to 1312.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by 1.

If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 1312.50 to 1313. Therefore, all disbursement amounts are 1313 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 1313 by 2 = 2626

Since $2626 is more than $2625, subtract the difference of $1. The last disbursement is equal to $1313–$1 or $1312.

Final Results: 1st Gross Disbursement Amount = 1313

2nd Gross Disbursement Amount = 1312

Total Loan Amount = $2625

Example 2: Determining Gross Disbursement Amount for three disbursements

Loan Amount Approved: $1000

Step 1: 1000 divided by 3 = 333.3333

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore 333.3333 truncates to 333.33

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by one.

If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 333.33 to 333. Therefore, all disbursement amounts are 333 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 333 by 3 = 999

Since $999 is less than $1000 you add the difference of $1. The last disbursement is equal to $333 + $1 or $334.

Final Results: 1st Gross Disbursement Amount = $333

2nd Gross Disbursement Amount = $333

3rd Gross Disbursement Amount = $334

Total Loan Amount = $1000

Example 3: Determining Gross Disbursement Amount for six disbursements

Loan Amount Approved: $22,167

Step 1: 22167 divided by 6 = 3694.5000

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore 3694.5000 truncates to 3694.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by 1.

If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 3694.50 to 3695. Therefore, all disbursement amounts are 3695 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 3695 by 6 = 22170

Since $22170 is more than $22167, subtract the difference of $3. The last disbursement is equal to $3695–$3 or $3692.

Final Results: 1st Gross Disbursement Amount = $3695

2nd Gross Disbursement Amount = $3695

3rd Gross Disbursement Amount = $3695

4th Gross Disbursement Amount = $3695

5th Gross Disbursement Amount = $3695

6th Gross Disbursement Amount = $3692

Total Loan Amount = $22,167

Net Disbursement Amount, Loan Fee Amount, and Interest Rebate Amount Calculations

Loan fee amount calculations do not change with the interest rebate implementation.

When determining the Combined Fee/Interest Rebate Amount and Loan Fee Amount truncate the result. Truncation is using only the whole dollar part of the amount with no rounding up or down. The combined fee/interest is a field used to assist in the calculation of the net disbursement amount.

When calculating individual disbursement loan fee amount, interest rebate amount, and net disbursement amount, use the following specifications for all disbursements:

To calculate **Net Disbursement Amount:**

Step 1: Combined Fee/Interest Rebate Amount (go out to 3 decimal places) = Gross Disbursement Amount x (Loan Fee Percentage – Interest Rebate Percentage)

Step 2: Truncate the Combined Fee/Interest Rebate Amount

Step 3: Net Disbursement Amount = Gross Disbursement Amount – Combined Fee/Interest Rebate Amount

To calculate **Loan Fee Amount:**

Step 4: Loan Fee Amount (go out to 3 decimal places) = Gross Disbursement Amount x Loan Fee Percentage

Step 5: Truncate the Loan Fee Amount

To calculate **Interest Rebate Amount:**

Step 6: Interest Rebate Amount = Net Disbursement Amount – (Gross Disbursement Amount – Loan Fee Amount)

To calculate from **Net Disbursement Amount to Gross Disbursement Amount** use the following calculation:

Net disbursement amount multiplied by 100 divided by 100 minus (Fee% - Rebate%)

OR

Net disbursement amount divided by .985 = Gross disbursement amount (truncated)

Then proceed with Step 1 listed above.

Leap Year Logic

EDExpress uses the following date format and leap year logic in the date fields on its databases:

- The date field format is CCYY/MM/DD.

- For (CC), the date field must contain only 19 or 20.

- For (YY), the date field must contain only 00–99.

- For month (MM), the date field must contain only 01–12.

- For day (DD), valid range depends on the month, as follows:

Month	Valid Day Range
01	01–31
02	0l–28 (unless year is divisible by 4 when 0l–29 is valid)
03	01–31
04	01–30
05	01–31
06	01–30
07	01–31
08	01–31
09	01–30
10	01–31
11	01–30
12	01–31

Implementation Guide

Overview

This section provides assistance to Direct Loan Custom Schools, Third Party Servicers, and Software Providers with implementing the system changes for the 2002–2003 Direct Loan Program. It describes 2002–2003 Direct Loan modifications and serves as a companion to the record layouts and edits contained in Section 1, Custom Layouts, and Section 2, Custom Edits.

A summary of the 2002–2003 Direct Loan modifications is provided in 2002–2003 Modifications at a Glance.

To help you understand the new guidelines, the modifications are classified into eight specific functional areas:

- Loan Origination and Change Records
- Promissory Notes
- Disbursements
- Reports
- Software Providers Interface
- Data Recovery
- Entrance Counseling
- Exit Counseling

Within each functional area, individual modifications are described and discussed. This discussion includes the business rules for implementation and, when applicable, an example of the modification.

If you have questions regarding the material in this section, please call the Common Origination and Disbursement System (COD) between the hours of 9 a.m. and 5 p.m. (ET) at:

Loan Origination and Change Records

Modify the Full Loan Origination Record

2002–2003 Modifications: The Borrower's Driver's License Number, Borrower's Driver's License State, Permanent Address Change Date, Local Address Change Date, Borrower's SSN Change Date, Borrower's DOB Change Date, and the 1st to 20th Disbursement Anticipated Percentage fields have been replaced with filler on the Full Loan Origination record (LOR) layout.

Currently, the Borrower's Driver's License Number, Borrower's Driver's License State, Permanent Address Change Date, Local Address Change Date, Borrower's SSN Change Date, and Borrower's DOB Change Date are on the LOR, and the Change Field Transmit Numbers. The 1st to 20th Disbursement Anticipated Percentage fields are on the LOR.

Starting in 2002–2003, the Borrower's Driver's License Number (Field #11), Borrower's Driver's License State (Field #12), Permanent Address Change Date (Field #139), Local Address Change Date (Field #140), Borrower's SSN Change Date (Field #141), Borrower's DOB Change Date (Field #142), and $1^{st} – 20^{th}$ Disbursement Anticipated Percentage (Fields #144-163) are replaced with filler on the LOR.

Business Rules:

- The Borrower's Driver's License Number and Borrower's Driver's License State are replaced with filler on the 2002–2003 Full Loan Origination record layout. The new filler field is Field #11 and the starting position is 132 and ending position is 153.

- The Change Field Transmit Number for Borrower's Driver's License Number (S015) and Borrower's Driver's License State (S014) have been eliminated as valid fields for change processing.

- The Permanent Address Change Date, Local Address Change Date, Borrower's SSN Change Date, Borrower's DOB Change Date are replaced with filler on the 2002–2003 Full Loan Origination record layout. The new filler field is Field #138 and the starting position is 915 and ending position is 946.

- The Change Field Transmit Number for the Permanent Address Change Date (S104), Local Address Change Date (S105), Borrower's SSN Change Date (S106), Borrower's DOB Change Date (S107) have been eliminated as valid fields for change processing.

- The 1st – 20th Disbursement Anticipated Percentage fields are replaced with filler on the 2002–2003 Full Loan Origination record layout. The new filler field is Field #140 and the starting position is 948 and ending is 988.

- You can continue to collect these data elements, but it is no longer necessary to export them to COD.

- See the Custom Layout section of the *2002–2003 Direct Loan Technical Reference* guide for the new LOR layout.

Implement New Loan Limit Edit

2002–2003 Modifications: The loan limit edit process has been modified.

Currently, the loan limit edit includes all loans with equal or overlapping academic year start and end dates for the same borrower and grade level. Also, the Dependency Status, Additional Unsubsidized Eligibility for Dependent Student Flag and Additional Unsubsidized Eligibility up to Health Profession Programs Amount Flag are used when determining a student's maximum annual loan limit.

Starting in 2002–2003, a new loan limit edit is performed on all 1999-2000 and forward incoming loans, using new selecting criteria. Any loans at that meet the following criteria will be pooled with the incoming loan:

- The loan is for the same borrower as the incoming loan.

- The loan is for the same grade level as the incoming loan.

- The loan has the same academic year start and end date as the incoming loan.

- The loan has an academic year that contains the academic year of the incoming loan.

- The loan has an academic year that is contained wholly within the academic year of the incoming loan.

The Dependency Status and Additional Unsubsidized Eligibility for Dependent Student Flag are not used when determining a student's maximum annual loan limit. The Additional Unsubsidized Eligibility up to Health Profession Programs Amount Flag continues to be used when determining a student's maximum annual loan limit.

Business Rules:
- The new loan limit edit applies to all 1999-2000 and forward loans received after implementation.

- The Dependency Status and Additional Unsubsidized Eligibility for Dependent Student Flag are not used when performing the annual loan limit edit.

- You will continue to submit the Dependency Status (Field #139) and Additional Unsubsidized Eligibility for Dependent Student Flag if applicable (Field #123) on the Full Loan Origination Record.

- The Dependency Status and Additional Unsubsidized Eligibility for Dependent Student Flag fields continue to be edited for valid field content.

- The Additional Unsubsidized Eligibility up to Health Profession Programs Amount Flag continues to be used when performing the annual loan limit edit.

Modify Local Address Processing

2002–2003 Modifications: The edit process for local address fields is modified: Student's Local Address, Student's Local Address City, Student's Local Address State, Student's Local Zip Code.

Currently, the student's local address fields (Student's Local Address, Student's Local Address City, Student's Local Address State, Student's Local Zip Code) are optional on the LOR. The fields are edited and the LOR is rejected if the edits fail. If these fields are blank when the LOR is received, they are populated automatically with the data found in the Borrower's Permanent Address fields (Borrower's Permanent Address, Borrower's Permanent Address City, Borrower's Permanent Address State, and Borrower's Permanent Zip Code). If a current local address is not received, the values that were received previously are carried over. Additionally, the Student Local Address change fields that include Student's Local Address, Student's Local Address City, Student's Local Address State, Student's Local Zip Code are edited and the change is rejected if the data within the fields fail the edits.

Starting in 2002–2003, the Student's Local Address fields (Student's Local Address, Student's Local Address City, Student's Local Address State, and Student's Local Zip Code) on the LOR remain optional. These fields continue to be edited when received. If the data received passes the edits, the values are stored. If the data received fails the edits, the LOR and the Change Record do not reject. If the field is rejected or received blank, COD does not populate any information pertaining to the local address, or use the permanent address information.

Business Rules:

- The student's local address fields, Student's Local Address (Field #135), Student's Local Address City (Field #136), Student's Local Address State (Field #137), Student's Local Zip Code (Field #138) continue to be edited but the LOR no longer rejects if the edits fail.

- The student's local address change field transmit numbers Student's Local Address (S100), Student's Local Address City (S101), Student's Local Address State (S102), Student's Local Zip Code (S103) continue to be edited but the change fields no longer reject if the edits fail.

- The new local address process applies to all Full Loan Origination record and Loan Origination Change Records received after implementation.

- The student's local address fields on the LOR remain optional fields and can be blank.

- If the data you submit fails the edit or if you submit an LOR where the local address information is blank, then COD does not retain any information pertaining to the local address. COD does not use any information from the borrower's permanent address.

- Loan Origination Reject Codes 61-65 and Loan Origination Change Reject Codes 61-65 are eliminated.

- See the Custom Edits section of the *2002–2003 Direct Loan Technical Reference* guide for the new Reject Codes, Error Messages, and Edit Descriptions.

Modify the Full Loan Origination Acknowledgement

2002–2003 Modifications: The Master Promissory Note (MPN) Type is added to the Full Loan Origination Record Acknowledgement record layout to indicate whether a Subsidized/Unsubsidized MPN is electronic or paper.

Currently, beginning with the July 2001 release, the LOR Acknowledgement includes a one-byte MPN Type, which can be "E" or blank.

Starting in 2002–2003, the MPN type, which is Field #7 (position 65), continues to be populated on the Full Loan Origination Acknowledgement record layout.

Business Rules:

- A new one-byte MPN Type is added to the Full Loan Origination Acknowledgement record layout.

- This change applies to Program Year 2001-2002 and forward.

- The first position of the filler Field #7 on the Full Loan Origination Record Acknowledgement is renamed the MPN Type. The additional 24 bytes of the filler field remain as spaces.

- The valid values for the MPN Type are as follows:

    - "E"—to indicate an electronic MPN, or

    - Blank—to indicate a paper MPN or a PLUS Promissory Note.

- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the new Full Loan Origination Acknowledgement record layout.

Process Bankruptcy Notifications from the Direct Loan Servicing Center

2002–2003 Modifications: COD receives a transaction from the Direct Loan Servicing Center (DLSC) whenever a borrower has filed for bankruptcy.

Starting in 2002–2003, the DLSC sends a pending bankruptcy transaction to COD whenever it is notified that a borrower has filed for bankruptcy. Upon receipt of this bankruptcy notification, COD inactivates all Master Promissory Notes (MPNs) for the borrower and rejects further disbursement transactions for all loans on file for the borrower at the time the pending bankruptcy notification is received. That is, COD rejects a disbursement transaction for the loans on file for this borrower if the disbursement activity date is after the date that COD was notified of the borrower's pending bankruptcy status.

Business Rules:
- This process applies to Program Year 1999-2000 and forward loans.
- Upon receipt of the pending bankruptcy notification from the DLSC, COD performs the following:
  - Inactivates all MPNs on file for the indicated borrower.
  - Rejects all subsequent disbursements for loans on file for the indicated borrower at the time the pending bankruptcy notification is received. That is, for those loans on file at the time of the pending bankruptcy notification is received, COD rejects disbursements that have an activity date after the receipt date of the pending bankruptcy notification. A new disbursement reject code (60—Borrower in Pending Bankruptcy Status) has been developed for this situation.
  - The customer service representatives notify the school(s) where the indicated borrower attends that he/she is in a pending bankruptcy status and that the above actions apply to this borrower.
- This borrower is eligible to receive future loans, provided that any loan origination records and MPNs are received at COD after the receipt of the pending bankruptcy notification.
- See the Custom Edits section of the *2002–2003 Direct Loan Technical Reference* guide for the new Reject Code, Error Message, and Edit Description.

Process Loan Discharge Notifications from the Direct Loan Servicing Center

2002–2003 Modifications: COD receives a transaction from the Direct Loan Servicing Center (DLSC) whenever a loan has been discharged.

Starting in 2002–2003, the DLSC sends a transaction to COD for all loans that are discharged. Loans may be discharged for the following reasons: bankruptcy, closed school, death, disability, false certification–ability to benefit, false certification–disqualifying status, teacher loan forgiveness, unauthorized signature/unauthorized payment, and unpaid refund. The discharged amount for these loans impacts the loan limit edit.

Business Rules:

- This process applies to Program Year 1999-2000 and forward loans.
- For loan discharges due to bankruptcy, closed school, false certification–ability to benefit, false certification–disqualifying status, teacher loan forgiveness, and unpaid refund, COD does not include the discharge amount in the borrower's loan limit if the discharged loan is pooled according to the new loan limit edit rules. MPNs on file for the borrower are unaffected. COD accepts future disbursements for this loan and other loans. COD accepts future origination records for this borrower.
- For loan discharges due to death, COD does not include the discharge amount in the borrower's loan limit if the discharged loan is pooled according to the new loan limit edit rules. COD inactivates all MPNs on file for this borrower. COD rejects future disbursements for all of the borrower's loans on file at the time the loan discharge notification is received. A new disbursement reject code (61–Borrower is Deceased) has been created for this situation. COD rejects future origination records for this borrower. A new origination reject code (B3–Invalid origination for this borrower) has been created for this situation. Additionally, the customer service representatives notify the school(s) where the indicated borrower attends that the above actions apply to this borrower.

- For loan discharges due to unauthorized signature/unauthorized payment, COD does not include the discharge amount in the borrower's loan limit if the loan discharged is pooled according to the new loan limit edits. COD inactivates the MPN that is linked to the loan being discharged. COD rejects future disbursements for the loan being discharged but accepts future disbursements for other loans for this borrower. A new disbursement error code (62–Loan is Affected by Discharge) has been created for this situation. COD accepts future origination records for this borrower. Additionally, the customer service representatives notify the school where the loan was originated that the above actions apply.

- For discharges due to disability, COD counts the discharge amount against the borrower's loan limit if the loan being discharged is pooled according to the new loan limit edits. MPNs on file for the borrower are unaffected. COD accepts future disbursements for the loan being discharged and other loans. COD accepts future origination records for this borrower.

- See the Custom Edits section of the *2002–2003 Direct Loan Technical Reference* guide for the new Reject Codes, Error Messages, and Edit Descriptions.

Promissory Notes

Modify the MPN/PLUS Promissory Note Acknowledgement

2002–2003 Modifications: The MPN Type is added to the MPN/PLUS Promissory Note Acknowledgement record layout to indicate whether a Subsidized/Unsubsidized Master Promissory Note (MPN) is electronic or paper.

Currently, the MPN Type does not exist on the MPN/PLUS Promissory Note Acknowledgement.

Starting in 2002–2003, a new one-byte MPN Type field (position 190) is added to the MPN/PLUS Promissory Note Acknowledgement record layout.

Business Rules:

- A new one-byte MPN Type field (Field #28) is added to the 2002–2003 MPN/PLUS Promissory Note Acknowledgement record layout. The new MPN/PLUS Promissory Note Acknowledgement record length of 190 accommodates the new field.

- The valid values for the MPN Type are as follows:

    - "E"—to indicate an electronic MPN

    - Blank—to indicate a paper MPN or a PLUS Promissory Note.

- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the new MPN/PLUS Promissory Note Acknowledgement record layout.

Disbursements

Allow Future Dated Disbursements

2002–2003 Modifications: Schools can send actual disbursement records with a disbursement activity date of up to seven calendar days in the future.

Currently, schools can send actual disbursement activity with an activity date up to the current processing date.

Starting in 2002–2003, schools may send actual disbursement records with a disbursement activity date that is up to seven calendar days in the future. The current Anticipated Disbursement Listing (ADL), Actual Disbursement Roster (ADR), and drawdown process remain unchanged.

Business Rules:
- Submitting future dated disbursements applies to Program Year 2002–2003 and forward, Direct Subsidized, Direct Unsubsidized, and Direct PLUS loans.
- Future dated disbursement records for actual disbursements, adjusted disbursement amount, and adjusted disbursement date (activity type "D," "A," and "Q") records with a disbursement activity date up to seven calendar days in the future are accepted.

- Disbursement Reject Codes R and 20 are eliminated.

- Disbursement Reject Code S (Disbursement date cannot be more than seven calendar days after the current date) has been added. This error code is used for activity types "D," "A," and "Q".

- Actual disbursements, adjusted disbursement amount, and adjusted disbursement date records (activity type "D," "A," and "Q") received are not booked until the disbursement activity date becomes current.

- See the Custom Edits section of the *2002–2003 Direct Loan Technical Reference* guide for the new Reject Codes, Error Messages, and Edit Descriptions.

Define Value Ranges for Disbursement Sequence Number

2002–2003 Modifications: The values of the disbursement sequence number on the disbursement record layout are separated into ranges.

Currently, you can submit disbursement sequence numbers 01 through 99.

Starting in 2002–2003, the valid value of the disbursement sequence number has been separated into three ranges. You can use disbursement sequence numbers 01 through 65 to submit actual disbursements, adjusted disbursement amount, and adjusted disbursement date records (activity type "D," "A," and "Q"). The origination system uses disbursement sequence numbers 66 through 90 for manual disbursement adjustments. Sequence numbers 99 through 91 are returned to you in the event of a Payment to Servicer transaction using Message Class DIOD03OP/Batch Type SP.

Business Rules:

- This separation of the disbursement sequence numbers applies to Program Year 2002-2003 and forward.

- You can use disbursement sequence numbers 01 through 65 to submit actual disbursements, adjusted disbursement amount, and adjusted disbursement date records (activity type "D," "A," and "Q").

- The origination system uses disbursement sequence numbers 66 through 90 for manual disbursement amount adjustments or disbursement date adjustments.

- You will not receive a disbursement acknowledgement for disbursement sequence numbers 66 through 90.

- Sequence numbers 99 through 91 (descending order) are returned to you in the event of a Payment to Servicer transaction using Message Class DIOD03OP/Batch Type SP.

- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the new Disbursement Layout.

Allow Customer Service Representatives to Create Actual Disbursement and Disbursement Adjustment Transactions

2002–2003 Modifications: Allow Customer Service Representatives (CSRs) at the Loan Origination Center (LOC) to create actual disbursement transactions, disbursement amount adjustment transactions, and disbursement date adjustment transactions.

Currently, this functionality is not available.

Starting in 2002–2003, CSRs at the LOC—on behalf of schools—can create actual disbursement transactions, disbursement amount adjustment transactions, and disbursement date adjustment transactions for loans originated at the LOC for program years **1998-1999 through 2001-2002**.

Business Rules:

- This modification only applies to program year 1998-1999, 1999-2000, 2000-2001, and 2001-2002 loans originated at the LOC.

- A CSR at the LOC has the ability to create actual disbursement transactions, disbursement amount adjustment transactions, and disbursement date adjustment transactions—on your behalf—through the Loan Origination Web application.

- You have the option to receive or not receive a disbursement acknowledgement from the LOC for each Web-generated transaction.

- Disbursement acknowledgements for these Web-generated disbursement transactions will be returned using Message Class DIOD##OP/Batch Type WG.

Reduce the Number of Booking Notifications

2002–2003 Modifications: Reduced the number of booking notification records.

Currently, a booking notification is generated and sent to you for each actual disbursement, adjusted disbursement amount, (activity type "D," "A,") at the time a disbursement (Activity Type = D) or a disbursement adjustment (Activity Type = A) books through a #B record.

Starting in 2002–2003, a booking notification is only sent when the first actual disbursement books. You do not receive a booking notification for subsequent disbursement activity.

Business Rules:

- A booking notification per loan is sent for Program Year 2002–2003 and forward.

- A booking notification is sent when the loan books. The fields to be populated are Loan ID (Field #1), Disbursement Activity (Field #3), Transaction Date (Field #4), User Identifier Create (Field #11), Disbursement Batch Number (Field #12), School Code (Field #13), COD's Total Net Booked Loan Amount (Field #24), and Acknowledgement Date, (Field #25). The other fields will be populated with blanks.

- A booking notification is not sent for any subsequent disbursement activity that books.

- The booking notification is transmitted using the disbursement activity = "L—Booking Disbursement" on the disbursement record using Batch Type #B.

- Disbursement Activity "M" and any references to it are removed from the Disbursement Record Layout.

- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the new Disbursement Record.

Modify the Disbursement Acknowledgement Record Layout

2002–2003 Modifications: School Status Code, Loan Identifier Status, Disbursement Number Status, Transaction Date Status, and Sequence Number Status from the Disbursement Acknowledgement Record have been replaced with filler.

Currently, School Status Code (Field #14), Loan Identifier Status (Field #15), Disbursement Number Status (Field #16), Transaction Date Status (Field #18), and Sequence Number Status (Field #19) are being populated based on error codes on the Disbursement Activity Taken Status field.

Starting in 2002–2003: School Status Code, Loan Identifier Status, Disbursement Number Status, Transaction Date Status, and Sequence Number Status on the Disbursement Acknowledgement Record are populated with filler when transmitted to you.

Business Rules:

- The School Status Code (Field #14), Loan Identifier Status (Field #15), and Disbursement Number Status (Field #16) are replaced with filler on the 2002–2003 Disbursement Acknowledgement record layout. The new filler field is field # 14 and the starting position is 93 and ending position is 95.

- The Transaction Date Status (Field #18), and Sequence Number Status (Field #19) are replaced with filler on the 2002–2003 Disbursement Acknowledgement record layout. The new filler field is field # 16 and the starting position is 106 and ending position is 107.

- See the Custom Layout section of the *2002–2003 Direct Loan Technical Reference* guide for the new Disbursement Acknowledgment Record Layout.

Reports

Merge DLSAS/732 Reports into New School Account Statement (SAS) Report

2002–2003 Modifications: A new reconciliation report, the School Account Statement (SAS), is delivered to schools and to the Department of Education. This report replaces the current Direct Loan School Account Statement (DLSAS) and 732 reports.

Currently, the DLSAS is generated each month for each school on file at the Common Origination and Disbursement System (COD). It is transmitted to the school through the Student Aid Internet Gateway (SAIG). If there is no activity during a month, a cash summary reflecting no activity is sent to the school. The DLSAS can then be pulled into the school's Direct Loan System and formatted to look like a monthly bank statement. The DLSAS continues to be sent as an electronic file and not as a preformatted report. The 732 report consists of year-to-date cash summary, cash detail, and loan-level detail information for a school. It is generated bi-weekly for Program Years 1997-2000 and monthly for Program Years 2000-2002. COD transmits the 732 Report to schools via the SAIG and delivers it on CD-ROM to the Department of Education.

Starting in 2002–2003, the 732 report and the DLSAS report is merged into a single report deliverable to the Department of Education and to schools. This report is called the School Account Statement (SAS).

You have several options regarding frequency, format, and data elements for the SAS report.

Business Rules:

- This change applies to Program Year 2002–2003 and forward.

- Processing and delivery of the DLSAS and 732 Reports for program years prior to 2002–2003 will continue to follow existing business rules and file layouts.

- Once COD receives activity for a given school, it must receive the SAS report.

- Schools may use the LO Online Web Application to change SAS Report options. These changes may also be made through a Common Origination and Disbursement System Customer Service Representative.

- Schools may choose when they receive the SAS report.

  - The default setting is for schools to receive the SAS report at the end-of-the-month.

  - Schools may change this default setting to receive the SAS report on the 15th of the month (mid-month). This option may be changed only once.

- Schools may choose the format of the SAS report:

  - The default setting is for schools to receive a fixed length file (without headers).

  - Schools may change this default setting to receive a true ASCII-delimited file. There are no restrictions on how often this option may be changed.

    - If a school chooses to receive a true ASCII-delimited file, the default setting will be to receive a comma-delimited file without headers.

    - Schools may change this default setting to receive a pipe-delimited file with headers, a pipe-delimited file without headers, or a comma-delimited file with headers.

- The SAS report will always have the following summary data:

  - Year-to-date Cash Summary

  - Year-to-date Disbursement Summary by Loan Type

  - Monthly Cash Summary

  - Monthly Disbursement Summary by Loan Type

- The Cash Detail section of the SAS is optional.

  - The default setting is for schools to receive monthly Cash Detail. There are no restrictions on how often this option may be changed.

  - Schools may change this default setting to receive monthly Cash Detail, year-to-date Cash Detail, or no Cash Detail.

- The Loan Detail section of the SAS is optional.

  - The default setting is for schools to receive monthly Disbursement Level Detail (without loan summary). There are no restrictions on how often this option may be changed.

- Schools can change that default setting to receive:
  - No Loan Detail
  - Year-To-Date Disbursement Level Detail (with loan summary)
  - Year-To-Date Loan Level Detail
  - Both Year-To-Date Disbursement Level Detail and Loan Level Detail.
- The SAS will be a single file sent to different message classes depending on the file format of the report.
  - The exception to this is if a school chooses to receive both Loan Level Detail and Disbursement Level Detail. In this case the school is sent two files, one with Summary data and Loan Level Detail and one with Summary Data and Disbursement Level Detail.
- COD will provide a schedule to the schools of when the SAS report will be run (mid-month and end-of-the-month).
- Schools have the option—with Direct Loan Operations approval and verification—to not receive the SAS for a given program year once the school has closed out that year.
- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the new School Account Statement record layout. See Appendix A for a sample layout of the SAS report.

Software Providers Interface

Collect Software Provider Name and Software Version

2002–2003 Modifications: The Software Provider Identifier and Version Number has been added to the batch Header record layout.

Currently, the Software Provider Identifier and Version Number are not on the batch Header record layout.

COD has added the capability to track the software provider's name and the provider's software version number used by schools to enhance its trouble-shooting capabilities. This is intended to improve the communication between Customer Service Representatives at COD and schools in identifying software problems.

Starting in 2002–2003, the Software Provider Identifier and Version Number—Field #10—has been added to the batch Header record layout. The Software Provider Identifier and Version Number is a nine-character field.

Business Rules

- A new nine-byte Software Provider Identifier and Version Number (Field #10) is added to the 2002–2003 Header record layout.

- The first three characters of the Software Provider Identifier and Version Number indicate the software provider identifier. The software provider identifier consists of alphanumeric characters.

- The last six characters of the Software Provider Identifier and Version Number indicate the software version number. The software version number consists of alphanumeric characters.

- The Software Provider Identifier and Version Number is an optional field.

- COD stores the Software Provider Identifier and Version Number but does not edit the field.

- COD returns blanks on all files sent back to school.

- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the new Header record layout.

Data Recovery

Modify the Rebuild Origination Detail Record Layout

2002–2003 Modifications: The 1st to 20th Disbursement Anticipated Percentage fields have been replaced with Filler on the Rebuild Origination Detail Record layout. The Master Promissory Note Type is added to the Rebuild Origination Detail Record layout to indicate the type of Master Promissory Note (MPN) a Subsidized/Unsubsidized loan is linked to.

Currently, the 1st to 20th Disbursement Anticipated Percentage fields are on the Rebuild Origination Detail Record layout. The MPN Type does not exist on the Rebuild Origination Detail Record layout.

Starting in 2002–2003, the 1st to 20th Disbursement Anticipated Percentage fields (Fields #141 – 160) are replaced with a one-byte MPN Type (Field 141, position 918) and a new 40-byte filler field (Field #142, starting position 919 and ending position 958) on the Rebuild Origination Detail Record layout for 2000-2001 and forward loans.

Business Rules

- Replacing the 1st to 20th Disbursement Anticipated Percentage fields (Fields #141—160) with a one-byte MPN Type—(Field 141, position 918) and a new 40-byte filler field (Field #142, starting position 919 and ending position 958) on the Rebuild Origination Detail Record layout applies to 2000-2001 and forward loans.

- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the new Rebuild Origination Detail Record layout.

Entrance Counseling

Deliver Entrance Counseling Results

2002–2003 Modifications: The LOC generates and sends a batch file to schools on a daily, weekly, or monthly basis. This file contains the borrower's Entrance Counseling test results.

Currently, schools can use the LO-online Web site to verify the borrower's test results using borrower's Social Security Number or the test date range.

Starting in 2002–2003, borrowers' test results are sent to the schools over the Student Aid Internet Gateway (SAIG) in addition to being available for download from the Web. Also, schools are able to choose the format and the frequency of the files they want to receive. The options for frequency are daily, weekly, or monthly. The options for file format are ASCII-delimited, fixed length or preformatted report.

Business Rules:
- This change applies to Program Year 2002–2003 and forward.
- Schools can select the delivery frequency of Entrance Counseling test results through the Loan Origination Web site. The options are daily, weekly, or monthly delivery.
- The default delivery frequency is to receive test results on a monthly basis.
- Schools can select the format of the file containing the Entrance Counseling test results. The options are a fixed length file, an ASCII-delimited file, or a preformatted report.
- The default file format is a fixed length file.
- The LOC transmits only those Entrance Counseling test results that have not been delivered previously.
- See the Custom Layouts section of the *2002–2003 Direct Loan Technical Reference* guide for the Entrance Counseling Results fixed length record layout. See Appendix A for a sample layout of the preformatted Entrance Counseling Results report.

Exit Counseling

Deliver Exit Counseling Results

2002–2003 Modifications: The Direct Loan Servicing Center (DLSC) generates and sends a file to schools containing the borrower's Exit Counseling results.

Currently, schools can use the DLSC Web site to verify the borrower's Exit Counseling results.

Starting in 2002–2003, borrowers' Exit Counseling results are sent to the schools over the Student Aid Internet Gateway (SAIG) in addition to being available for download from the Web.

Business Rules:
- Schools can select the delivery frequency of Exit Counseling test results through the Direct Loan Servicing Center Web site. The options are daily, weekly, or monthly delivery.
- The default delivery frequency is to receive test results on a monthly basis.

Combination Layouts

Introduction

The file layouts in this section are to be used by a Combination EDExpress/Institution System to:

1. Import data from another institutional system into the EDExpress database to create loan origination records (DIEA03OP) or make changes to loan origination records (DIEC03OP); or

2. Export useful data from the EDExpress system to be used by other institutional systems such as disbursement and loan origination data. The user may use file formats and user-defined queries from within EDExpress to select the desired fields and specific records for exporting. See the online help in EDExpress for details on how to create queries and file formats.

Because each institutional system has unique requirements for importing data files, the export files created by EDExpress for use by external systems are created without header or trailer records attached. If needed, the appropriate header or trailer records must be created by your institutional system upon import. Also, these export files are created in ASCII format and the end of each record is delineated or marked with carriage return/line feed characters (ASCII 13 and 10). There is no end of file marker (EOF), only the final carriage return/line feed marker after the last record.

Similarly, EDExpress receives data from external systems without a header and trailer record but does require an ASCII format with the end of each record marked with carriage return/line feed characters (ASCII 13 and 10). Again, there is no end of file marker (EOF); only the final carriage return/line feed marker after the last record.

Note: If the file is incorrectly formatted without the carriage return/line feed, the import fails and the following error message displays: *invalid record length.* (You are given the record size of the import file.)

External Loan Data

You may define your own file layouts and queries from within EDExpress to select the desired fields and specific records for exporting.

Files exported out of EDExpress using File Formats can be either standard fixed-length files or a field with each field separated by a delimiter. When exporting a file, if you choose fixed-length, the system exports the file in a standard layout, with each field exported into a specific field position within the layout. If you choose comma, tab, or custom delimiter, the software exports the file with each field separated by the chosen delimiter. Some systems may find it easier to import the file with a selected delimiter, rather than using a fixed-length layout for all exports.

The following layout is a sample if "All Fields" are selected when creating a file format (layout). The file layouts are applied by selecting a file format code when you select an Export type of "External Loan Data." In these cases the file names are the same (DEER03IN). To narrow or select a specific set of records, you may also use a query in combination with the user defined file layout.

The export process pulls the records from the associated database and resets the Export to External flag to "N" to indicate these records have been exported for use in an external system.

Up-Front Interest Rebate Implementation for 2001–2002 and Forward

This section includes the business rules and calculations for:

- gross disbursement,
- net disbursement,
- loan fee, and
- interest rebate amounts.

Business Rules

- An up-front interest rebate amount will be calculated at the disbursement level by the schools for each Direct Subsidized, Direct Unsubsidized, and Direct PLUS loan.

- The up-front interest rebate percentage for 2002-2003 Direct Loans is 1.5% of the gross disbursement amount.

- The current method to calculate individual Gross Disbursement Amounts and the current rounding logic remain as is. The variance is still applied to the last anticipated disbursement.

- The method to calculate the Net Disbursement Amount and Interest Rebate Amount is new. The new calculations are explained below.

- The resulting Loan Fee Amount and Interest Rebate Amount are truncated. Truncated means the cents are removed and the remaining whole dollar is the amount to use. Do not round up or down.

- When calculating the Combined Fee/Interest Rebate Amount and the Loan Fee Amount, take all results out 3 decimal places to ensure consistent results in automated tools such as MS Excel.

- Schools send to COD the gross disbursement amount, loan fee amount, and net disbursement amount for anticipated and actual disbursements. Additionally, schools send the interest rebate amount for both anticipated and actual disbursements.

Gross Disbursement Calculations

Gross disbursement calculations do not change with the interest rebate implementation.

When determining gross disbursement amounts for a loan, dollar figures are rounded to the nearest dollar and all disbursements are equal with the exception of the last disbursement, in some cases. This is due to any variance being applied to the last disbursement.

When computing gross disbursement amounts, use the following specifications:

Step 1: Individual disbursement amount is Loan Amount Approved divided by the total number of disbursements.

If necessary, truncate any positions that exist past 2 decimal places.

Step 2: Round the individual disbursement amount. Rounding occurs at the 1st and 2nd decimal places to the nearest dollar.

- If the 1st and 2nd decimal places are 50 or greater, increase the 1st digit to the left of the decimal sign by one.

- If the 1st and 2nd decimal places are less than 50, do not change the 1st digit to the left of the decimal sign.

Step 3: To determine the amount of the last disbursement, multiply the individual disbursement amount by the number of disbursements.

- If the sum of the disbursements is greater than the Loan Amount Approved, subtract the difference from the last disbursement.

- If the sum of the disbursements is less than the Loan Amount Approved, add the difference to the last disbursement.

The variance is applied to the last disbursement.

Three examples are provided on the next pages.

Example 1: Determining Gross Disbursement Amount for Two Disbursements

Loan Amount Approved: $2625

Step 1: 2625 divided by 2 = 1312.5000

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore, 1312.5000 truncates to 1312.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

- If the 1st and 2nd decimal places are .50 or greater, increase the 1st digit to the left of the decimal sign by 1.

- If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 1312.50 to 1313. Therefore, all disbursement amounts are 1313 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 1313 by 2 = 2626

Since $2626 is more than $2625, subtract the difference of $1. The last disbursement is equal to $1313–$1 or $1312.

Final Results:

1st Gross Disbursement Amount = 1313

2nd Gross Disbursement Amount = 1312

Total Loan Amount = $2625

Example 2: Determining Gross Disbursement Amount for Three Disbursements

Loan Amount Approved: $1000

Step 1: 1000 divided by 3 = 333.3333

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore, 333.3333 truncates to 333.33

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

- If the 1st and 2nd decimal places are .50 or greater, increase the 1st digit to the left of the decimal sign by one.

- If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 333.33 to 333. Therefore, all disbursement amounts are 333 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 333 by 3 = 999

Since $999 is less than $1000 you add the difference of $1. The last disbursement is equal to $333 + $1 or $334.

Final Results:

1st Gross Disbursement Amount = $333

2nd Gross Disbursement Amount = $333

3rd Gross Disbursement Amount = $334

Total Loan Amount = $1000

Example 3: Determining Gross Disbursement Amount for Six Disbursements

Loan Amount Approved: $22,167

Step 1: 22167 divided by 6 = 3694.5000

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore, 3694.5000 truncates to 3694.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

- If the 1st and 2nd decimal places are .50 or greater, increase the 1st digit to the left of the decimal sign by 1.

- If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 3694.50 to 3695. Therefore, all disbursement amounts are 3695 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 3695 by 6 = 22170

Since $22170 is more than $22167, subtract the difference of $3. The last disbursement is equal to $3695–$3 or $3692.

Final Results:

1st Gross Disbursement Amount = $3695

2nd Gross Disbursement Amount = $3695

3rd Gross Disbursement Amount = $3695

4th Gross Disbursement Amount = $3695

5th Gross Disbursement Amount = $3695

6th Gross Disbursement Amount = $3692

Total Loan Amount = $22,167

Net Disbursement Amount, Loan Fee Amount, and Interest Rebate Amount Calculations

Loan fee amount calculations do not change with the interest rebate implementation.

When determining the Combined Fee/Interest Rebate Amount and Loan Fee Amount, truncate the result. Truncation is using only the whole dollar part of the amount with no rounding up or down. The combined fee/interest is a field used to assist in the calculation of the net disbursement amount.

When calculating individual disbursement loan fee amount, interest rebate amount, and net disbursement amount, use the following specifications for all disbursements:

To calculate **Net Disbursement Amount:**

Step 1: Combined Fee/Interest Rebate Amount (go out to 3 decimal places) = Gross Disbursement Amount x (Loan Fee Percentage – Interest Rebate Percentage)

Step 2: Truncate the Combined Fee/Interest Rebate Amount

Step 3: Net Disbursement Amount = Gross Disbursement Amount – Combined Fee/Interest Rebate Amount

To calculate **Loan Fee Amount:**

Step 4: Loan Fee Amount (go out to 3 decimal places) = Gross Disbursement Amount x Loan Fee Percentage

Step 5: Truncate the Loan Fee Amount

To calculate **Interest Rebate Amount:**

Step 6: Interest Rebate Amount = Net Disbursement Amount – (Gross Disbursement Amount – Loan Fee Amount)

To calculate from **Net Disbursement Amount to Gross Disbursement Amount** use the following calculation:

Net disbursement amount multiplied by 100 divided by 100 minus (Fee% - Rebate%)   OR

Net disbursement amount divided by .985 = Gross disbursement amount (truncated)

Then proceed with Step 1.

Rounding Logic for Disbursement Amount Calculations Table

The following table provides a summary of the fields that are calculated when **subsidized/unsubsidized disbursements** are entered or changed:

Loan Fee Percentage = 3 percent and Interest Rebate Percentage = 1.5 percent.

Field Name	Description
1st Gross Disbursement Amount	Per Gross Disbursement Calculations
1st Combined Fee/Interest Rebate Amount	1st Gross Disbursement Amount multiplied by (Loan Fee Percentage minus Interest Rebate Percentage)
1st Loan Fee Amount	1st Gross Disbursement Amount multiplied by Loan Fee Percentage
1st Net Disbursement Amount	1st Gross Disbursement Amount minus 1st Combined Fee/Interest Rebate Amount
1st Interest Rebate Amount	1st Net Disbursement Amount minus (1st Gross Disbursement Amount minus 1st Fee Amount)
2nd Gross Disbursement Amount	Per Gross Disbursement Calculations
2nd Combined Fee/Interest Rebate Amount	2nd Gross Disbursement Amount multiplied by (Loan Fee Percentage minus Interest Rebate Percentage)
2nd Loan Fee Amount	2nd Gross Disbursement Amount multiplied by Loan Fee Percentage
2nd Net Disbursement Amount	2nd Gross Disbursement Amount minus 2nd Combined Fee/Interest Rebate Amount
2nd Interest Rebate Amount	2nd Net Disbursement Amount minus (2nd Gross Disbursement Amount minus 2nd Loan Fee Amount)

Leap Year Logic

EDExpress uses the following date format and leap year logic in the date fields on its databases:

- The date field format is **CCYYMMDD**

- For (**CC**), the date field must contain only: 19 or 20

- For (**YY**), the date field must contain only: 00 - 99

- For month (**MM**), the date field must contain only: 01 - 12

- For day (**DD**), valid range depends upon month as follows:

Month	Valid Day Range
01	01 - 31
02	01 – 28
	(unless year is divisible by 4 when 01 - 29 is valid)
03	01 - 31
04	01 - 30
05	01 - 31
06	01 - 30
07	01 - 31
08	01 - 31
09	01 - 30
10	01 - 31
11	01 - 30
12	01 - 31

Importing Data into the EDExpress Direct Loan Software

Interfacing your institution's system with EDExpress allows you to take advantage of the built-in edits and PC communication software. It reduces the data preparation effort by importing student data from your existing systems into EDExpress. After processing Direct Loan records with EDExpress, you can create a customized export file to share the data with your other institutional systems.

Certain borrower information is required before you can originate a loan. This information includes data about the borrower such as the name, address, date of birth, citizenship, and year in college. Also, it includes information specific to the loan such as the loan amount approved, loan period start and end dates, and assumed MPN status. When creating the import file, please refer to the column marked 'required field' in the External Import Loan Origination Add file (DIEA) record layout.

As an EDExpress user, you have the following three options when entering data required to originate a Direct Loan:

1. Key enter data from the SAR and other hardcopy documents

2. Import data from EDExpress' ISIR and/or packaging system databases

3. Import data from an institutional system (External System)

The following specifications address the third option: Importing data from an institutional system. For information regarding the first and second options, please refer to the online help in the Direct Loan software.

Notes:

- EDExpress automatically performs the origination process for all records containing all of the required origination fields. This step is performed during the import process for all records with a loan origination status of N.

- If your institution chooses to fill field #1 with a preassigned Loan ID, you may assign any loan sequence number (001-999). However, we strongly recommend that you start loan sequence number creation with 001 and do not start with 101.

Importing New Records

This import option allows you to add records to the EDExpress Direct Loan database. You must create a file of borrower records according to a standard file layout. See the Combination Layout Section for layout and file creation specifications. If the record passes reject editing and a Loan ID is not specified in the import file, the loan record is added to the EDExpress database and a 21-digit Loan ID is assigned. The Loan ID is important to systems interfacing with EDExpress because it is needed when making changes to existing records.

When a loan record is imported, EDExpress searches for records with an identical student SSN, Loan Type, Program Year, and Direct Loan School Code. If there is no match, EDExpress assigns 001 as the Loan Sequence Number.

If EDExpress discovers a match on a student's SSN, Loan Type, Program Year, and Direct Loan School Code, it proceeds using your selected add options. You request to be prompted for duplicates by selecting "Y."

- You can request EDExpress to create a new loan record when a duplicate record is found by selecting "C" (Create All). When a duplicate is found, EDExpress assigns the next highest Loan Sequence Number.

- You can request EDExpress to skip the duplicate by selecting "N" (Skip Duplicate Record). The record is skipped and counted on the Import Add Report as a skipped record.
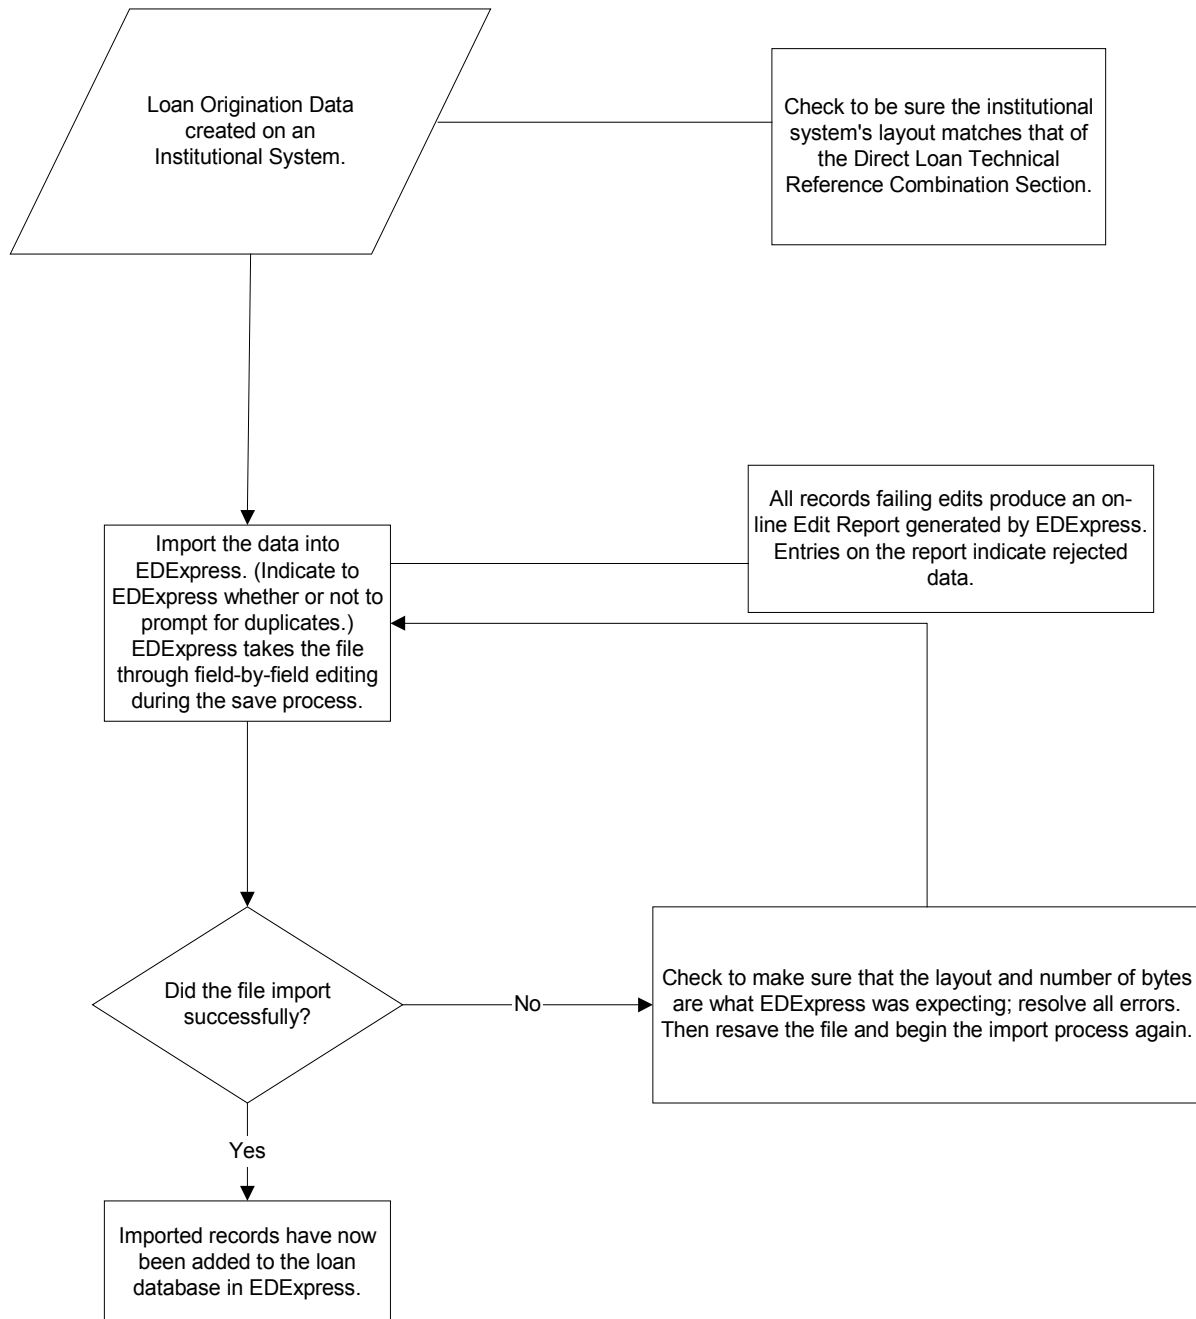

Imported records must adhere to the External Import Add Record layout. EDExpress prompts you for a filename. Once a filename is provided, EDExpress performs a series of edits and calculations on each record of the imported file.

An Add Edit Report is created for each file of imported records. This report identifies rejected records and provides statistics on the number of records added to the database.

Notes:

- EDExpress maintains separate records for each borrower loan type. For example, if a borrower is approved for a subsidized loan, unsubsidized loan, and PLUS loan, three records are imported to EDExpress, one for each loan type. For each imported record, a record is established in the Loan Origination database.

- For all loan types, the Loan Origination database maintains demographic information about the borrower. In addition, student demographic information is maintained for PLUS loans.

- In the COD process a Loan ID is referred to as an Award ID. For Phase-in Participants the term Loan ID will continue to be used. However, be aware that the terms Loan ID and Award ID are synonymous.

External Import Loan Origination Add

Loan Origination Data created on an Institutional System.

Check to be sure the institutional system's layout matches that of the Direct Loan Technical Reference Combination Section.

Import the data into EDExpress. (Indicate to EDExpress whether or not to prompt for duplicates.) EDExpress takes the file through field-by-field editing during the save process.

All records failing edits produce an on-line Edit Report generated by EDExpress. Entries on the report indicate rejected data.

Did the file import successfully?

No → Check to make sure that the layout and number of bytes are what EDExpress was expecting; resolve all errors. Then resave the file and begin the import process again.

Yes

Imported records have now been added to the loan database in EDExpress.

Originating and Determining MPN Status within EDExpress

Upon Origination, EDExpress determines the MPN status of a loan and updates the MPN status field. This is the MPN status for the loan record until the record is exported and acknowledged by COD.

The criteria EDExpress uses to determine the MPN status of a loan is based on whether you have indicated that you process loans using multi-year functionality or single-year functionality in Direct Loan Setup.

Indicating in EDExpress Multi-Year or Single-Year Functionality

A field is added to Direct Loan System Setup asking "Do you use multi-year MPNs at your school?" This field is a checkbox. If you process MPNs using multi-year functionality, mark the box. If you process MPNs using single-year functionality, leave the box empty.

EDExpress defaults to a marked box indicating yes, school is using multi-year functionality.

Note: This setup field is not exported to COD. If you choose COD to link your loans using single-year functionality you must contact a COD Customer Service Representative and request your school file be updated.

Multi-Year Functionality for Subsidized/Unsubsidized

Determining the MPN Status for schools using multi-year functionality is a two step decision making process within EDExpress.

First, EDExpress checks for other existing originated subsidized or unsubsidized loans for the student. When another loan exists within EDExpress for a student, EDExpress reviews the MPN Status of the existing loan.

IF…	THEN…
The MPN Status of the existing loan indicates a valid MPN exists or assumes a valid MPN exists (A, P, S, M, or T)	EDExpress updates the MPN Status of the originating loan to "T," assumes a valid MPN exists
The MPN Status of the existing loan indicates no valid MPN exists (R or N)	EDExpress sets the MPN Status of the originating loan to "R," ready to print, and a new MPN can be printed

When no other loan(s) exist within EDExpress for a student, EDExpress reviews the ISIR MPN Indicator if ISIRs were imported into EDExpress.

IF…	THEN…
The ISIR MPN Indicator indicates an active MPN at COD (A)	EDExpress updates the MPN of the originating loan to "T," assumes a valid MPN exists
The ISIR MPN Indicator is blank or indicates no valid MPN (I, C, N, or U)	EDExpress sets the MPN Status of the originating loan to "R," ready to print, and a new MPN can be printed

Single-Year Functionality for Subsidized/Unsubsidized

When determining the MPN Status of a loan at a school using single-year functionality, EDExpress looks for other originated subsidized or unsubsidized loans for the student with the same academic year within EDExpress.

IF…	THEN…
No other loans exist for this student within EDExpress	EDExpress sets the MPN Status of the originating loan to "R," ready to print, and a new MPN can be printed
Another loan exists and the academic year start and end dates do NOT match the loan being originated	EDExpress sets the MPN Status of the originating loan to "R," ready to print, and a new MPN can be printed
Another loan exists and the academic year start and end date match the loan being originated and EDExpress reviews the MPN Status of the existing loan:	
If the MPN Status of the existing loan indicates a valid MPN exists or assumes a valid MPN exists (A, P, S, M, or T)	EDExpress updates the MPN Status of the originating loan to "T," assumes a valid MPN exists
If the MPN Status of the existing loan indicates no valid MPN exists (R or N)	EDExpress sets the MPN Status of the originating loan to "R," ready to print, and a new MPN can be printed

Note: For schools implementing single-year functionality the ISIR MPN Indicator is not used in the process to determine if a new MPN should be printed.

Importing the MPN Status from COD

EDExpress imports the determined MPN status for a loan from COD via the Loan Origination Acknowledgement.

When the loan is accepted by COD, COD links the loan to a MPN, if possible. The Loan Origination Acknowledgement (DISF03OP) contains COD's MPN status for the loan record.

Upon import of the COD Loan Origination Acknowledgement EDExpress updates the MPN Status of a loan.

IF COD MPN Status Imported is:	THEN EDExpress Updates to:
A = Accepted MPN at COD	A = Accepted by COD
P = MPN not on file at COD	R = Ready to Print
I = Inactive	R = Ready to Print
C = Closed	R = Ready to Print
Q = Rejected	R = Ready to Print
X = Pending MPN at COD	X = Pending

Batch Processing and Batch Identifiers (Batch IDs)

All data exchanged between Phase-in Participants and COD must be in the required record layout format. Data must be sent to the Student Aid Internet Gateway (SAIG) for submission to COD in groups of like data types. Each data type has a specific record layout, that is, Full Loan Origination Records, Disbursement Records, and so forth. Therefore each record set is considered a separate batch type. Every batch must contain a header and trailer record (see Custom Layouts). The batch header contains a Batch ID that is unique to the export batch.

Note: Each Direct Loan batch is sent to SAIG with a Transmission Header and a Direct Loan Batch Header. It is most important that the Batch ID and the Message Class submitted in both of the header records are the same. If these data elements are different on the two header records, the Direct Loan detail records will not process correctly at COD. For more information regarding transmitting to the SAIG, see the SAIG Host Communication Guide at **www.SFAdownload.ed.gov**.

Schools should track Batch IDs on their systems. It is helpful to store the Batch IDs at a record level and at a batch level for each submission.

All Batch IDs transmitted to COD must have the same format and be 23 characters long. The first two characters are the Batch Type, which indicates the type of data included in the batch. The next character is the Cycle Indicator, which indicates the program year of the data included in the batch. The next six characters are the School Code, which indicates the Direct Loan School Number of the school sending the batch. The next eight characters are the Date Batch Created, which indicates the date on which the school created the batch. The last six characters are the Time Batch Created, which indicate the time at which the school created the batch.

Note: In the COD process Batch IDs are referred to as Document IDs. For Phase-in Participants the term Batch ID will continue to be used. However, be aware that the terms Batch ID and Document ID are synonymous.

The Batch Integrity Rule

COD returns an acknowledgement record for every Full Loan Origination Record, Disbursement Record, and Loan Origination Change Record that is submitted by the school. If a school submits a batch with 1,000 Full Loan Origination Records, COD returns an acknowledgement file corresponding to only those 1,000 Full Loan Origination Records. The acknowledgement file always contains the same Batch ID originally submitted by the schools. This rule applies for Full Loan Origination Records, Loan Origination Change Records, and Disbursement Records initiated by the school.

Note: In the COD process, an Acknowledgement is referred to as a Response. For the purposes of this technical reference, we will continue to use the term Acknowledgement. However, be aware that the terms Acknowledgement and Response are synonymous

Exchanging Loan Origination Records with COD

You transmit a loan origination record to SAIG to be transmitted to COD for each originated loan. If you request the COD to print promissory notes, your request is part of the loan origination record. If you print your borrower's promissory notes, the loan origination record can be transmitted before or after the student signs the note. However, COD must receive the loan origination record, promissory note, and disbursement record before it can book the loan.

Two types of loan origination records can be exported to COD:

- Full Loan Origination Record
- Loan Origination Change Record

Submitting Full Loan Origination Records to COD

For each new loan, subsidized, unsubsidized, and PLUS, you must send a Full Loan Origination Record to SAIG for transmission to COD. The Full record contains all of the data required to originate the loan: demographic information about the borrower, the Loan ID, as well as anticipated loan disbursement data. Data on each record must be edited to adhere to the field length, field type, and valid field content specifications.

As mentioned above, Full Loan Origination Records contain anticipated disbursement amounts and anticipated disbursement dates. In the COD process disbursements have a Payment Trigger associated with them.

Note: No action is required by Phase-in Participants to set or unset the COD Payment Trigger. Upon acceptance of a loan record, COD stores anticipated disbursements and sets the Payment Trigger appropriately.

In addition, upon origination, EDExpress determines the assumed MPN status for subsidized and unsubsidized loans. (The process for determining the MPN Status is explained later in the MPN text of this section.)

Full Loan Origination Records are transmitted in two types of files. All of the subsidized and unsubsidized records are transmitted in a file with a message class of DESF03IN. All PLUS records are transmitted in a file with a message class of DEPF03IN.

Loan records marked by the user as inactive on the Loan tab are excluded from the Loan Origination export to COD from EDExpress.

Schools can perform credit checks for PLUS borrowers by using the COD Web site. Schools have the option to submit credit check requests via the COD Web site or to submit Full Loan PLUS Origination Records to COD for COD to perform the credit check request.

Schools are given the capability to receive a credit decision through an interactive COD Web site. The COD Web site accesses an approved credit bureau and returns a credit acknowledgement to the school. The COD Web site displays the credit decision of approved (accepted) or denied (failed). The reason for a failed credit decision is not displayed.

When the school receives a failed credit decision from the COD Web site, it has the option to either submit a Full Loan PLUS Origination Record to COD (so that COD can send an endorser form to the borrower) or originate the additional unsubsidized loan for the student. The Full Loan PLUS Origination Record must be sent to COD if the borrower requests an endorser.

The credit decision received from the COD Web site does not have to be forwarded to COD. COD receives a simultaneous response from the credit bureau at the time the school performs the credit check. COD stores the credit decision and sends necessary letters to the borrowers.

Note: Certification must be kept at the school, indicating that the borrower has authorized the school to perform the credit check and also indicating whether or not the borrower wants an endorser in the case of a failed credit decision.

Receiving Full Loan Origination Acknowledgements from COD

COD returns one acknowledgement record for each Full Loan Origination Record it receives. Batch integrity is maintained; the school receives acknowledgement records for all transmitted records in the batch.

These records are received in message class DISF03OP for subsidized and unsubsidized records and DIPF03OP for PLUS records. These records indicate whether the origination record is rejected or accepted. For PLUS records, the Full Loan Origination Acknowledgement also indicates whether the credit check is accepted, denied, or pending. For subsidized and unsubsidized loans, the Full Loan Origination Acknowledgement also indicates COD's MPN Status for the loan. (Further information about this process is explained later in the MPN text of this section.)

Note: COD is creating a Student Identifier composed of Social Security Number, last name and date of birth. The combination of these data elements is matched against CPS. If this match is unsuccessful on a subsidized or unsubsidized loan record a school receives a reject code of A9 – No eligible SSN, date of birth and last name combination match on CPS for student. When a school receives this error, the school should go to the COD Web site for assistance in how to resolve this mismatch.

If a credit decision is overridden (modified) for a PLUS record, a separate PLUS Credit Decision Acknowledgement is received from COD (message class DIPC03OP). The PLUS Credit Decision Acknowledgement is transmitted to you at any time after the initial decision has been received on the Full Loan Origination Acknowledgement.

Once the Full Loan Origination record is accepted by COD, it should not be sent to COD again If changes need to be sent to update information on the record, a change record described below must be sent to COD. The record errors need to be corrected and the updated Full Loan Origination record transmitted to COD with the message class DESF03IN/DEPF03IN.

To reduce turn around time for acknowledging Full Loan PLUS Origination Records, COD processes the credit check and acknowledges the PLUS loans within 24 hours of receipt at COD. If a credit decision other than accepted or denied is received, COD acknowledges the accepted PLUS loan record with a pending credit check status.

PLUS Credit Decision Update (Override) Acknowledgement

For any previously accepted PLUS Full Origination records with a pending or denied credit decision, the borrower may request a subsequent credit check, an override, or submit an endorser addendum. Under these circumstances, COD returns a PLUS Credit Decision Update Acknowledgement. The Credit Decision Update Acknowledgement indicates one of the following statuses:

- C = (Credit overridden: new credit information provided),

- D = (Credit denied: endorser not okay),

- N = (Credit denied, after pending), or

- E = (Credit overridden: endorser OK).

The Credit Decision status indicates the results of PLUS Loan credit checks on the parent borrower or endorser. For approved applicants, you can proceed to the disbursement of funds.

COD sends further information and instructions directly to those applicants not approved for a PLUS loan on the basis of credit checks. COD has the option to override the credit decision after an initial denial. The PLUS Credit Checks can be updated at any time on the basis of the borrower submitting supporting documentation to COD or credit reporting agency.

If you process PLUS loans, you receive updated credit decisions in the Credit Decision Override acknowledgement file with message class DIPC03OP.

Loan Origination Change Record

Once the Full Loan Origination Record is accepted by COD, changes to the borrower's demographic or loan information requires a change record to be sent to COD. Loan Origination Change Records are transmitted in a separate message class DESC03IN.

Each change record contains the borrower's loan identification (necessary to identify the record on COD), the number associated with the field being corrected, and the corrected value.

Importing Changes to Existing Records

This import option allows you to submit changes from your school's systems to the EDExpress Direct Loan database. To perform this option, you must create a file of borrower records according to a standard file layout. Each record must contain the borrower's loan identification number, field number associated with the field to be updated, and the updated value.

Use the External Import Change record layout and the table of Loan Origination Import Change Field Numbers to create your change record. These can be found in the Combination Layouts section of this technical reference.

To import most efficiently, you should import the records in Social Security Number order, and the fields to be updated within each change record should appear in numerical order. For example, if you are changing fields S013 (Borrower's Telephone Number) and S101 (Student's Local Address City), field S013 should appear first in the change record followed by field S101.

Each change record contains space for up to 10 data element changes. Multiple change records can be exported for a Loan ID if more than 10 changes are required.

Corrected values must be left justified within the 50-byte change value field. Numeric fields are left justified and blank filled up to the maximum number of positions for that field.
For example, when correcting a 5-byte numeric field to a value of '900,' the correction record would display 00900 with 45 blank spaces.
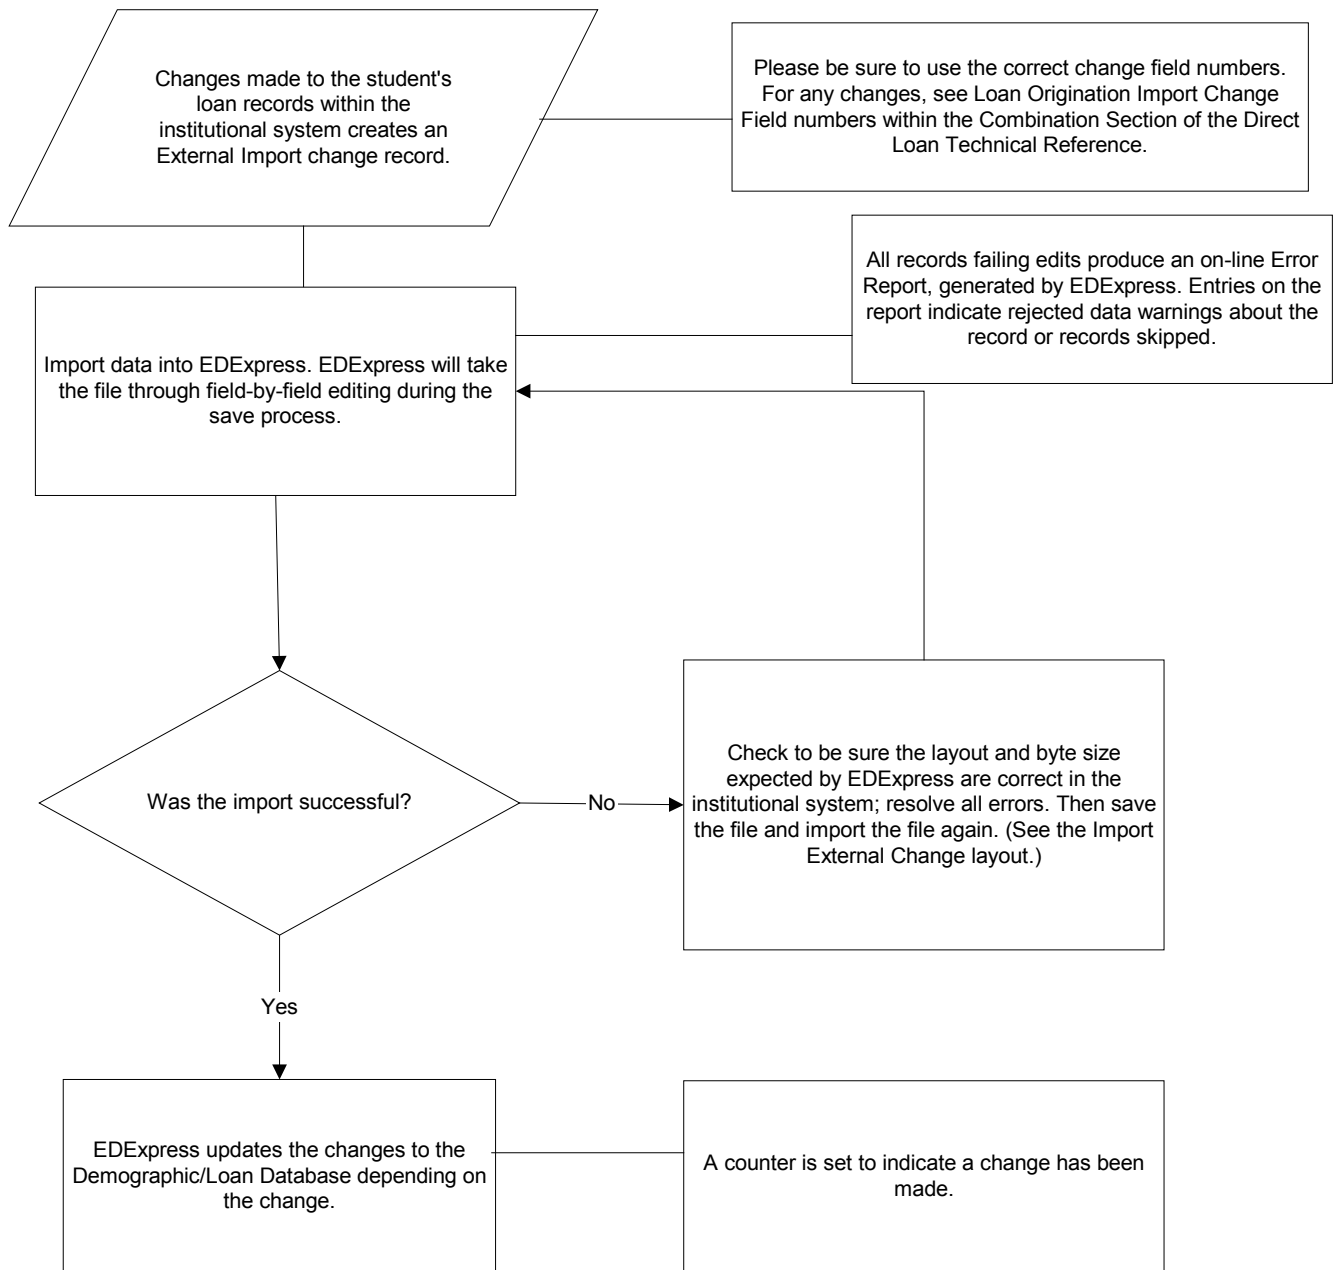

Example:

Two changes are submitted to a loan record whose ID is 012345678U03G99999001:

- a change in the borrower's last name to SMITH, and

- a change in the 1st disbursement anticipated gross amount to $900.

The following would be the contents of the change record excluding the create time, batch number, and User ID fields at the end of the record:

External Import Change Record

Changes made to the student's loan records within the institutional system creates an External Import change record.

Please be sure to use the correct change field numbers. For any changes, see Loan Origination Import Change Field numbers within the Combination Section of the Direct Loan Technical Reference.

All records failing edits produce an on-line Error Report, generated by EDExpress. Entries on the report indicate rejected data warnings about the record or records skipped.

Import data into EDExpress. EDExpress will take the file through field-by-field editing during the save process.

Was the import successful?

No

Check to be sure the layout and byte size expected by EDExpress are correct in the institutional system; resolve all errors. Then save the file and import the file again. (See the Import External Change layout.)

Yes

EDExpress updates the changes to the Demographic/Loan Database depending on the change.

A counter is set to indicate a change has been made.

Receiving Loan Origination Change Acknowledgements from COD

A Loan Origination Change Acknowledgement (DIOC03OP) has the same record layout as the record layout used to transmit the change record to COD. The acknowledgement record indicates whether each change is accepted or rejected. Rejection codes are associated with each rejected field.

- If the change is accepted, then there are no reject codes associated with that field.

- If a change is rejected, then it must be corrected and only the fields that were in error need to be resent to COD as change records.

Processing Promissory Notes

All Master Promissory Notes (MPN) and PLUS Promissory Notes must be mailed and accepted before the loans are booked. The hardcopy MPNs/promissory notes must be accompanied by a paper manifest that lists the borrower's name and MPN ID or PLUS Loan ID for each promissory note in the shipment. Also, the paper manifest provides a certification to be signed by an official at the school.

Note: For 2002-2003, schools continue to send batches of MPNs or PLUS Promissory Notes with paper shipping manifests to the following address:

> P.O. Box 5692

> Montgomery, AL 36103-5692

Master Promissory Notes and PLUS Promissory Notes must be batched separately and a separate paper manifest created for each. Each batch may contain up to 100 notes. Additionally, separate batches (manifests) must be created for each Direct Loan school code. The MPN/Promissory Note Manifest option is available through the EDExpress Print process. The format for the Master Promissory Note manifest and the PLUS manifest are provided in Appendix D.

Note: For Standard Origination Schools, COD collects from the borrower and prints the MPNs and PLUS promissory notes. Therefore, Standard Origination schools do not generate paper promissory note manifests, and do not mail notes.

Receiving MPN/PLUS Promissory Note Acknowledgements

COD returns an electronic file (DIPA03OP) containing the acknowledgement of any MPN/PLUS Promissory Notes processed. This acknowledgement contains a generated batch ID. Batch integrity does not exist between the paper notes and the MPN/PLUS Promissory Note Acknowledgement. Acknowledgements do not match one to one with paper manifests sent by the school.

Promissory Note Status

The DIPA03OP file contains a code in field #4 (Promissory Note Status) that returns one of three values: A (Accepted), X (Pending), or R (Rejected). Pending indicates that the promissory note is accepted but there is no Loan Origination record at COD to link to this promissory note.

Promissory Note Reject Codes

Promissory Note Reject Codes indicate why a note is rejected. If a note is rejected, a new MPN/PLUS Promissory Note must be printed with the corrected data and resubmitted to the LOC.

Promissory Note Reject Codes are mainly handled through a manual process. However, there are two electronic error codes that may be returned on a Promissory Note Acknowledgement. These error codes are "01" and "S." Once the notes are received in the mailroom, the notes are manually inspected for missing or incorrect information. A generic checklist is used. If it is determined that there are errors or information is missing, the checklist is marked in the appropriate blank describing the error that needs to be corrected.

The checklist and MPN/PLUS Promissory Note are returned to the school or borrower (Standard Origination Schools). A copy of the Checklist is provided in Appendix D. See the Custom Edit Section for Promissory Note Reject Reasons.

Master Promissory Note

The Master Promissory Note (MPN) is a legal document requiring the borrower to repay the funds borrowed under the Direct Loan Program. The MPN is the only approved promissory note for Direct Subsidized and Unsubsidized Loans for all schools. The MPN must be printed by the school or COD and signed by the student borrower before disbursement of a subsidized loan or an unsubsidized loan. Schools process MPNs using either multi-year note functionality or single-year note functionality.

The MPN ID prints on the MPN. This identification is used by COD to link loans to the MPN. For printed MPNs for 2000-2001 and forward, the format of the MPN ID changed to use "M" as the MPN indicator instead of "S" or "U" in the loan type code field.

Note: MPNs are linked to a Loan Origination record using the first three letters of the First Name. If the First Name field is blank on the Loan Origination Record or on the MPN, the first three letters of the Last Name are used.

Multi-Year Functionality

Multi-Year use of the MPN applies to all four year and graduate/professional schools that are not subject to an emergency action or limitation, suspension, or termination (LS & T) action per Direct Loan regulations. Any school with questions regarding eligibility may contact Direct Loan Operations.

Note: When processing 2002-2003 loan records, COD is aware of open MPNs generated prior to 2002-2003.

If a borrower is attending a school eligible for multi-year functionality, the borrower may have only one open MPN for all subsidized and unsubsidized loans disbursed for program year 1999-2000 and forward. For example, the open MPN at COD can be a MPN processed for year 2000-2001. The 2000-2001 loans and forward are linked to this open MPN. Since multiple loans are linked to a MPN, the promissory note print sequence number is no longer necessary. If a school is using multi-year functionality, that school must have a confirmation process in place. Schools are also allowed to adjust upward and downward within an academic year without having to originate a new loan.

An open MPN on file at COD is assigned to the borrower and is not limited for use at a specific Direct Loan school. Therefore, a school using MYN functionality can use any MPN accepted by COD. Thus, all loans for a student are linked to the same MPN across schools and academic years.

Single-Year Functionality

If a school is NOT eligible for MYN functionality (single-year school), a new MPN must be generated each academic year for each borrower. A single-year school must use a MPN generated at or for that school only. A single-year school can link multiple subsidized and unsubsidized loans for the same academic year, for the same student, to the same MPN. The academic year start and academic year-end dates must be the same on all loan records linked to a specific MPN.

On the Full Loan Origination Acknowledgement, there is a MPN Indicator for subsidized/unsubsidized loans. If the Loan record has been linked to a MPN at COD, the MPN Indicator is populated with a "Y." Loan records not linked to a MPN on file at COD have the MPN Indicator populated with an "N."

Valid MPN

An open MPN is valid for up to 10 years from the date of the first anticipated disbursement if an actual disbursement has been made for any associated loan origination record. If a student wishes to close a MPN, he or she must provide a request in writing to close a MPN to the Direct Loan Servicing Center or to the school. If the closed notification is received at the school, the school must forward the original documentation to COD. COD upon receipt of the original close MPN notification, closes the MPN. Once a MPN has been closed, no new loans can be linked to it. A new MPN must be generated if new loans are originated. However, all disbursements and booking activities for the loans already linked to the closed MPN continue to be processed by COD.

Reporting Disbursements

Note: The Actual Disbursement Record cannot be accepted by COD until they have accepted the Loan Origination Record.

Before COD can "book" a loan, COD needs three essential components:

1. An accepted Loan Origination Record

    a) Approved Credit Decision (PLUS ONLY)

2. An accepted MPN/PLUS Promissory Note

3. An accepted Actual Disbursement Record

Once an Option 1 or 2 school has verified a completed and signed MPN/PLUS Promissory Note is on file, as well as other eligibility verification required by regulations (e.g., student enrolled at least half-time), it can make a loan disbursement to the student or parent (either by check or by crediting the student's account).

COD Disbursement Record Types

Actual Disbursement Records must be submitted to SAIG for transmission to COD and accepted for each disbursement transaction. Each disbursement and adjustment books separately.

There are four COD Disbursement Records:

1. Disbursement = record type D (Batch Type #H)

2. Adjusted Disbursement Amount = record type A (Batch Type #H).

3. Adjusted Disbursement Date = record type Q (Batch Type #H)

4. Payment to Servicing = record type P (Batch Type SP)

A Disbursement Record contains data for the initial disbursement for a given disbursement number.

An Adjusted Disbursement Amount Record is sent to COD when the amount of a disbursement needs to be increased or decreased. This includes disbursements being adjusted to zero. For more information, see the *DL School Guide* and the appropriate DL Bulletins.

An Adjusted Disbursement Date Record is sent to COD when the date of an original actual disbursement needs to be changed. This record type is transmitted after an actual disbursement is sent to and accepted by COD.

Booking Notification

New for 2002-2003: No longer are these notifications sent for each actual disbursement or actual adjusted disbursement transaction. A Booking Notification is now sent only once for each loan at the time the first disbursement books. A Booked Loan Record is generated by COD providing the booked date for a loan. The record updates the EDExpress database with the loan booked date. It is important to import booking notification acknowledgements on a timely basis. Otherwise, loans booked at COD may display as unbooked in EDExpress.

Payment to Servicing

A Payment to Servicing record (record type P) is generated by COD when a borrower makes a payment to Servicing by the borrower within 120 days of disbursement. This transaction does not update the disbursement amounts recorded on the EDExpress database. This record is to inform you that the student has additional loan eligibility for the current year. EDExpress allows the Loan Amount Approved for this loan to include this additional refunded amount in the annual loan limit for this loan if the borrower decides to borrow additional funds.

Note: This transaction should not be returned to COD.

Disbursement Record Type "Q"

Disbursement type "Q" (Adjusted Disbursement Date) has been added for making adjustments to the actual disbursement date. In order to change the disbursement date, the school should use disbursement record type "Q" to show the correct actual disbursement date. The "Q" transaction can only be used after the school has sent an actual disbursement and received the disbursement acknowledgement. The following rules apply to transaction type "Q":

1. An actual disbursement must exist (see example #1). Disbursement type "Q" is only for date changes, not changes to the actual disbursement amount.

2. This is a separate disbursement transaction and must be transmitted to COD (see example #2).

3. Disbursement type "Q" adjusted disbursement date can be a date after a prior transaction date for that disbursement number (see example #3).

4. Disbursement type "Q" adjusted disbursement date cannot be a date later than subsequent disbursement numbers (see example #4).

5. Disbursement type "Q" can be entered with a date before any adjustments to that same disbursement (see example #5).

6. Multiple transactions may cause a delay in processing.

7. Disbursement type "Q" follows the same delete rules as any other disbursement transaction (cannot be deleted unless in a "R = Ready Status" or "E = Rejected Status").

The following are examples that apply to the rules outlined above:

Example #1

Disb. #	Disb. Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	Q	01	05/01/2002	$1000	READY	NO	See rule #1

Example #2

Disb. #	Disb. Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2002	$1000	ACCEPTED	YES	Initial Disbursement Entered
1	Q	02	05/02/2002		ACCEPTED	YES	See Rule #2
2	D	01	06/01/2002	$1000	ACCEPTED	YES	Second Disbursement Entered

Example #3

Disb. #	Disb. Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2002	$1000	ACCEPTED	YES	Initial Disbursement Entered
1	Q	02	04/01/2002		READY	YES	See Rule #3
2	D	01	06/01/2002	$1000	ACCEPTED	YES	Second Disbursement Entered
2	Q	01	04/02/2002		READY	YES	See Rule #3

Example #4

Disb. #	Disb. Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2002	$1000	ACCEPTED	YES	Initial Disbursement Entered
2	D	01	06/01/2002	$1000	READY	YES	Second Disbursement Entered
1	Q	02	06/02/2002		READY	NO	See Rule #4

Example #5

Disb. #	Disb. Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2002	$1000	ACCEPTED	YES	Initial Disbursement Entered
1	A	02	05/15/2002	$500	READY	YES	Adjusted amount downward 15 days later
1	Q	03	05/15/2002		READY	YES	See Rule #5. This would change the date of the initial disbursement to 5/15 which is the same date as the adjustment and is allowed
2	D	01	06/01/2002	$1000	READY	YES	Second Disbursement Entered

Flagging a Subsequent Disbursement Number as the First Disbursement

Once disbursement #1 has been generated and sent to COD, you can flag a subsequent disbursement number as the first disbursement.

With the current process, EDExpress generates disbursement #1 first when adding an actual disbursement record. However, a new field is added to the actual disbursement grid and an action code to flag a subsequent actual disbursement (#2 through #20) as the first disbursement. This "C" flag can be applied to a subsequent disbursement number only if the disbursement date on the subsequent disbursement has an earlier action date than the action date on the previous accepted disbursement #1. The "C" flag updates COD database to indicate that the disbursement flagged is the first disbursement for a loan.

Note: The first disbursement must always have the earliest date. Once disbursement #1 is accepted by COD or a flagged disbursement is accepted by COD, any disbursement for that loan with an earlier date will be rejected. If several disbursements are received by COD for the same batch cycle, disbursement #1 or a disbursement with a "C" flag (whichever has the earliest date) is processed first and the rest of the disbursements are processed in chronological order.

Anticipated disbursements continue to be in sequential and chronological order.

Importing Disbursement Data into EDExpress

You can create a change record to import actual disbursement data from an external institutional system into EDExpress. To do this, use the External Change Record format (DIEC03OP) in the Combination Layouts section. The change record should include the following data elements:

Field	Change Field Number
Loan ID	N/A
Sequence Number	N/A
Disbursement Number	D003
Transaction Date	D004
Action Type (Actual Disbursement)	D006
Action Amount (Actual Disbursement)	D007
Actual First Disbursement Change Flag	D008

Disbursement Action Types

The gross, fee, interest rebate, and net amounts are sent to COD for all anticipated and actual disbursements. Disbursement records can be recorded in EDExpress by entering either actual gross or net amounts. EDExpress calculates the other amounts.

You indicate whether disbursements are entered using the gross amount or net amount in Direct Loan System Setup. Once a disbursement is entered into EDExpress using a disbursement gross amount or a disbursement net amount, all actual disbursement records for that loan must be entered using the same method.

In addition to entering the amount of a disbursement, the disbursement number and the action date, you must enter the Action Type field. This field tells EDExpress what the amount represents.

The following chart describes the Action Types available.

Description	Action Type
Enter **Gross or Net** Amount of the disbursement	D
Enter **Gross or Net** Amount of the adjustment	A
Use anticipated disbursement amounts in the anticipated disbursement grid to enter **Gross or Net** Amounts to the actual disbursement grid	U
Enter **Net Adjustment Amount (positive or negative)** of the adjustment	N
Adjusted Disbursement Date	Q

Sequence of Disbursement Records

Disbursement records should occur in the file grouped by Loan ID. The records must be sorted within Loan ID by Disbursement Number and Disbursement Sequence Number. For example, a loan has one actual disbursement and two adjustments. Record type D should precede record type A, and the two adjustments (record type A) should be in ascending date order.

To make the import work most efficiently, you should create the file so that the records are imported in transaction date order. If you have more than one record for a single transaction date, they should be sorted in Social Security Number order.

Remember: Disbursement activity must be submitted to COD **within 30 days** of the transaction date.

Timing

For Option 1 and 2 schools, disbursement records are sent after you have received a signed valid MPN/PLUS Promissory Note from the borrower or a valid MPN is on file at COD. For Standard Origination schools, disbursement records are sent to COD after you have received an accepted MPN/PLUS Promissory Note Acknowledgement for the borrower or a valid MPN is on file at COD. Take care to ensure that the disbursement record is accepted on a Disbursement Acknowledgement before transmitting change records for adjustments to $0.

Export Record of Disbursement Information

Direct Loan software creates a record of disbursement information to send to SAIG for transmission to COD. COD edits the information against the loan origination record data stored in its system. COD returns an acknowledgement to the school indicating whether or not each disbursement record has been accepted (DIOD03OP).

Submit Correction Disbursement

You may receive a record from COD indicating the disbursement information record is rejected. In this case, you need to determine why the record was rejected, then correct the record and retransmit it to COD.

Process Disbursement Adjustments

Adjustments occur when the amount on a disbursement is incorrect and needs to be increased or decreased. This new adjusted disbursement amount needs to be sent to COD.

Inactive Loan Process (Adjustments to Zero)

Individual disbursements and/or Loan Amount Approved can be adjusted to zero. This process provides you the flexibility to increase the loan by simply recording and sending COD an upward adjustment if the loan or disbursement is to be reactivated after being adjusted to zero.

When you select the inactive flag in EDExpress a dialog box appears displaying two options. Option 1 marks the loan inactive and no longer displays the loan on reports. The loan amount approved and anticipated disbursement are not adjusted by this option. Option 2 marks the loan inactive, no longer displays the loan on reports, adjusts the loan amount approved to zero, and adjusts all anticipated disbursement to zero. The selection of Option 2 also generates all necessary Change Records to be exported to COD.

The following scenarios demonstrate this process:

Scenario A

School A needs to cancel an entire loan and NO Actual Disbursements have been made:

1. Reduce the Loan Amount Approved to $0 or mark the loan Inactive and select the option to reduce the Loan Amount Approved to $0. Save the record.

    Note: Saving the process within EDExpress automatically reduces each Anticipated Disbursement to $0.

2. Forward a Loan Origination Change Record that contains the change to the Loan Amount Approved and all Anticipated Disbursements to COD.

3. Increase the Loan Amount Approved to the appropriate amount, which automatically resets the Inactive Flag, in case you need to reactivate this loan.

    EDExpress automatically recalculates the Anticipated Disbursements.

5. Forward a Loan Origination Change Record that contains the change to the Loan Amount Approved and all Anticipated Disbursements to COD.

Scenario B

School B wants to cancel an entire loan, but Actual Disbursements have been made:

1. Adjust all Actual Disbursements to $0 and send in a Disbursement Record that contains the adjusted disbursement record to COD.

2. At the same time, reduce the Loan Amount Approved to $0 or mark the loan Inactive and select the option to reduce the Loan Amount Approved to $0. Save the record.

    Note: Saving the process in EDExpress automatically reduces each Anticipated Disbursement.

3. Forward a Loan Origination Change Record to COD, which contains the change to the Loan Amount Approved and all Anticipated Disbursements.

    Note: This change record (Step 3) can be forwarded to COD at the same time the Disbursement Record in Step 1 is forward to COD.

4. (As in Step 3 for Scenario A above) Increase the Loan Amount Approved to the appropriate amount if you need to reactivate this loan.

    Enter the recalculated Anticipated Disbursements. A Loan Origination Change record is sent to COD to report the new amounts.

5. Adjust the appropriate Disbursement number back up to the disbursement amount if an Actual Disbursement is to be recorded. A Disbursement Record is sent to COD to report the new Actual Disbursement amounts.

Scenario C

School C wants to only cancel individual Actual Disbursement(s):

1. Adjust the individual Actual Disbursement(s) to $0.

2. Send a Disbursement Record that contains this adjusted disbursement to COD.

3. Reactivate this disbursement by entering an upward adjustment to that same disbursement, then send a Disbursement Record with the new amount(s) to COD.

Note:

- If you only adjust the disbursement(s) down to zero without adjusting the Loan Amount Approved appropriately, the student's loan data at NSLDS may not be reported correctly.

- If the sum of Actual Disbursements is changed to $0, a message displays suggesting that you may also want to change the Loan Amount Approved to $0.

Disbursement Confirmation (Schools in the Confirmation Pilot)

Schools participating in the Confirmation Pilot receive authorization from the borrower for the disbursement of funds under a Direct Subsidized Loan or a Direct Unsubsidized Loan. To accommodate this procedure, a Confirmation Flag indicates that the borrower at the school has confirmed the disbursement.

Receiving Disbursement Acknowledgement Records from COD

COD returns an Acknowledgement Record for each Disbursement Record you submit. In addition, some disbursement transactions are generated by COD and sent to you on the Disbursement Acknowledgement. The acknowledgement record is in the same format as the Disbursement Record. They are returned in message class DIOD03OP.

When processing disbursements or adjusted disbursements, if COD calculates different amounts than reported by the school, these amounts are returned in the acknowledgement. If there is no change to the amounts, these fields are returned blank.

School Reconciliation

You must reconcile your school's Direct Loan records on file at COD with the school's internal Direct Loan records. This process is School Reconciliation and you should perform this process on a monthly basis.

New for 2002-2003, the report formally known as the '732 Report' and the 'DLSAS' reports are merged into one report, the SAS.

School Account Statement

COD initiates the reconciliation process. You receive on a monthly basis a School Account Statement (SAS) from COD designated by Direct Loan school code. The SAS can be imported into DL Tools software and formatted to look similar to a bank statement. This statement reports the cash records and the booked and unbooked disbursement transactions on file at COD. The SAS has six possible sections:

- Year-To-Date Cash Summary,
- Year-To-Date Disbursement Summary by Loan Type,
- Monthly Cash Summary,
- Monthly Disbursement Summary by Loan Type,
- Cash Detail, and
- Loan Detail.

You are responsible for reviewing and comparing the monthly statement to ensure the accuracy of the data on both your school's system and COD database. This data must also be reconciled to your school's internal student account records and bank records.

Software Tool for School Reconciliation– DL Tools

A software tool to assist you with the reconciliation process is DL Tools. This tool replaces the Optional Loan Detail Exception File. Starting with academic year 2002-2003, the functionality to import the 2002-2003 SAS file (formally DLSAS) will be moved from EDExpress Direct Loan Module Version 8.1 to DL Tools Version 2.0. With this tool all schools can import the SAS file and run comparisons between the loan and disbursement data on file at COD and on your local school database. In addition this software tool can also be used to track drawdowns and returns of excess cash at your school and compare to the records at COD.

Note: For 2001-2002, DL Tools Version 1.0 allows all schools to run a comparison between the 732 Report and the school's database. This software is available at **www.SFAdownload.ed.gov**.

School Report Options

Users of DL Tools should request COD to send the SAS files in a fixed length file without a header record. This format option plus other report options for all schools are fully described in the Implementation Guide, Section 4.

Resolving Discrepancies

These two processes, the SAS and the DL Tools Version 2.0, assist you in reconciling your school data with the data at COD. When discrepancies are found, you should go back and ensure that all origination, promissory note, and disbursement processing is completed. Remember:

- COD's cash balances only report on "Booked" data for the month reported in the SAS. Booked status on your school system can only be updated by the booked loan transaction.

- Export all pending data batches for origination records, promissory notes, and disbursements.

- Import all pending acknowledgement batches to update the accepted status and booked status flags on your school's system.

- EDExpress and Combination schools find it helpful to use the Status Report to resolve discrepancies on the SAS.

The SAS Record Layouts appear in Section 1, Custom Layouts. See Appendix A for a set of sample reports.

Technical Tips

On the following pages, some technical tips are provided in the sections listed below:

- Batch IDs
- User-Defined Data Fields

Batch IDs

All Batch IDs through the Direct Loan System have the same format. Each batch ID is 23 characters long. The first two characters are the batch identifiers, which represent the type of batch. One character represents the cycle year. The next six characters are the school code. The next eight characters are the date the batch was created. The next six characters are the time the batch was created. All of the batch identifiers are listed below.

Batch Identifier	Type of Batch
#F	External Export: External Export
PF	Export to COD: Full Loan PLUS Origination
#L	Export to COD: Optional Loan Detail Exception File
#E	Export to COD: Loan Origination Change
#H	Export to COD: Disbursement
#D	Export to COD: Full Loan Sub/Unsub. Origination
#R	Import from COD: Pending Disbursement List (Anticipated Disbursement Listing)
#Q	Import from COD: Funded Disbursement List (Actual Disbursement Roster)
#O	External Import: External Import Loan Origination Add
#P	External Import: External Import Change Record
#E	Import from COD: Loan Origination Change
#H	Import from COD: Disbursement Acknowledgement
#B	Import from COD: Booking Notification
SP	Import from COD: Payment to Servicing
#A	Import from COD: Prom Note
#C	Import from COD: PLUS Credit Decision Update
PF	Import from COD: Full Loan PLUS Origination Acknowledgement
#D	Import from COD: Full Loan Sub/Unsub. Origination Acknowledgement
#W	Import from COD: 30-Day Warning Report
AS	Import from COD: School Account Statement-DL
RB	Import from LOC/COD: Rebuild Data File
TBD	Import from COD: Exit Counseling Results
TBD	Import from COD: Entrance Counseling Results

User-Defined Data Fields

If you create a File Format that contains fields from all record types (A=Demographic, B=User Data, D=Loan, N=Anticipated Disbursement, and M=Actual Disbursement), the software does not export records of types A or B unless one record of type D, M, or N matches the Export Status (Y or N) selected on the Export dialog.

In order to ensure that Demographic and User-Defined Data records are exported, we recommend you create a File Format that contains only Demo and/or User-Defined Data fields (record types A and B) and export using this new File Format and an export status of B.

This method requires two External Exports but ensures that all Demographic and User-Defined Data records that changed are exported.

Appendix A

Direct Loan Reports

Management Files from COD, the LOC, and Servicing

COD, the LOC, and Servicing generate and send reports to schools through the SAIG mailbox.

The generated reports are listed below with sample reports following these descriptions.

The School Account Statement (SAS)

The SAS reports the cash summary, cash records and the booked and unbooked disbursement transactions on file at COD. The SAS has six sections:

- Year-to-Date Cash Summary,
- Year-to-Date Disbursement Summary by Loan Type,
- Monthly Cash Summary,
- Monthly Disbursement Summary by Loan Type,
- Cash Detail (optional), and
- Loan Detail (optional).

This data must be reconciled to your school's internal accounting records.

The 30-Day Warning Report

The 30-Day Warning Report is a file reporting unbooked loans for which COD has not received the three required elements to "book" a loan within 30 days of the first anticipated disbursement date. The report lists the Loan ID and the data that is required to book the loan. Loans where the Loan Amount Approved is adjusted to $0 do not appear on the 30-Day Warning. Also, loans that appear on the 30-Day Warning Report for a 90-day period are removed if a Promissory Note and an Actual Disbursement has not been received at COD.

The Duplicate Student Borrower Report

The Duplicate Student Borrower Report lists the student borrowers for which COD or the LOC has accepted multiple Direct Subsidized and/or Unsubsidized loan origination records with the same or overlapping academic years.

The Inactive Loan Report

The Inactive Loan Report is a file listing loans that have been inactivated (adjusted to $0) by the school for the reporting period.

The SSN/Name/Date of Birth Change Report

The SSN/Name/Date of Birth Change Report lists Social Security Number Changes initiated by the school or Servicing, Name Changes initiated by the school, and Date of Birth Changes initiated by the schools. This report is generated by the LOC.

It also indicates SSN Changes initiated by the school but rejected by Servicing.

The Pending SSN Changes Over 45 Days Report

The Pending SSN Changes Over 45 Days Report lists the SSN changes initiated by the school and forwarded to Servicing for confirmation. However, a confirmation has not been received from Servicing for a period of 45 days from the date the LOC sent the request to Servicing.

The Disbursement Activity Not Yet Booked At Servicing Report

The Disbursement Activity Not Yet Booked at Servicing Report lists the disbursement transactions that have been booked at COD or the LOC, but have not been booked at Servicing. This report also lists the disbursement transactions that have not been booked at COD or the LOC because of error transactions received from Servicing.

The Pending Disbursement List (Anticipated Disbursements List)

The Pending Disbursement List file is transmitted to Option 1 and Standard Origination schools only. This file lists all pending anticipated disbursements dated 30 to 45 days in the future.

COD generates this file based on accepted full origination records and accepted promissory notes for the school.

Schools should submit full origination records, changes, and promissory notes to COD for anticipated disbursements not included on the list but ones that the school intends to make.

The Funded Disbursement List (Actual Disbursement Roster)

The Funded Disbursement List file is transmitted to Option 1 and Standard Origination schools only. The Funded Disbursement List is transmitted to schools 5 business days prior to the anticipated disbursement date.

This file lists all the Loan IDs and anticipated disbursement data on which COD has requested funds.

Funds transferred to the school from FMS must be disbursed to the borrowers based on the Funded Disbursement List.

COD includes borrowers on this report based on anticipated disbursements on accepted Loan Origination Records submitted to COD at least 10 business days prior to the anticipated disbursement date.

Entrance Counseling Results

Entrance Counseling Results are transmitted on a daily, weekly, or monthly basis determined by the preference set by the school. The Entrance Counseling Results are sent either as a pre-formatted report, a fixed length file, or a comma-delimited report.

The Entrance Counseling Results lists all the borrowers that have passed the Entrance Counseling Test for a particular school during the period of the report (daily, weekly, or monthly period). Only new test results are reported.

Delinquent Borrower Report from the Direct Loan Servicing Center

Receiving the Delinquent Borrower Report

You may request the Delinquent Borrower Report in either report or data format (See Direct Loan Bulletin 98-25). The report indicates delinquent borrowers who are at least 31 days delinquent in making their loan payments. The report is printed in portrait and lists four borrowers on a page. The following data elements are listed:

School Number
School Date
Borrower Name
Account Number
Residence Phone
Business Phone
Address Line 1
Address Line 2
Address Line 3
Address Code
Birth Date
Loan Amount
Repayment Plan
Monthly Pmt
Days Delinquent
Delinquent Date
Separation Date
Grace End Date
Current Status
Past Due Amount
Location Code
Location Name
Location Phone

A summary report is also provided. The summary is divided into three sections: Stafford Borrowers, In-School Consolidation Borrowers, and All Borrowers. Within each section the borrowers are categorized by their days past due. These categories are summarized by number of accounts, amount past due, and the original loan amount. Finally, each section has a total number of borrowers who defaulted during the current month and the number of borrowers who defaulted year-to-date.

The Duplicate Student Borrower Report lists student borrowers for which COD has
accepted multiple Direct Subsidized and/or Unsubsidized Loan Origination records.
The list indicates other schools that have submitted a loan origination record for
the same borrower who may be attending your school. This report assists in
identifying subsequent loan origination records that may reject due to exceeding the
annual loan limits. This report does NOT relieve the school of its responsibility
to monitor all loan activity (including FFEL) for a student through the Financial
Aid Transcript and NSLDS processes.

This report lists SSN/Name/Date of Birth changes for a student with loans
from schools. The list also indicates SSN changes rejected by Servicing. This
report assists schools in identifying when demographic data changes for
a student.

** Servicer has notified COD of a different Social Security Number for this borrower.
COD recommends that the school sends a Change record to COD to update the borrower's
Social Security Number.

Appendix B

Lists and Reports

The following pages describe reports to assist you in managing the Direct Loan process at your school. You may want to develop similar reports to gather data from your custom system.

Batch Activity List

Description

This report monitors the process of creating, transmitting, and importing batches. School's tolerances (or guidelines) are set for the number of days each type of batch should take to complete. When setting these tolerances, keep in mind COD's processing time, school procedures for exports and imports, and other specifics associated with your school's communication software/hardware configuration.

When selecting this report in EDExpress, you must enter a school code. You may also choose to enter a reporting date range, batch type to be included, the option to print only exceptions to the tolerances, and the option to print totals only. If you enter a reporting date range only the batches with a Batched/Print Date within the specified data range print on the report.

Analysis Tips

Analysis of the report results provides assistance with identifying possible bottlenecks or inefficiencies in your current procedures. This report can be utilized as part of a Continuous Improvement evaluation performed at regular reporting intervals.

There are many variables that can affect transmitting batches to COD. If the Batch Activity report shows your process is performing outside of your school's tolerances, you may want to consider:

- Creating procedures for sending and receiving data from the network

- Putting procedures in place to ensure timely transmission of data

- Including steps in your procedures for export and import into your system

- Critical time batch processing

- Processing batches efficiently during periods of high volume. You may want to set the report period to evaluate your batch control during these critical processing periods

- This report could be used to identify batches that are missing acknowledgements because these batches do not have an "Import Date"

Batch Activity List (Continued)

Report Headings and Data Descriptions

Heading	Description
School Code	Six-digit School Code identifier
Batch ID	Identifies the batch created for transmission to the Loan Origination Center
	The first two characters identify the type of records included in the batch:
	#D - Full Subsidized/Unsubsidized Origination PF - Full PLUS Origination #E - Origination Change #H – Disbursement
	The other portions of the Batch ID are year identifier, school code, and batch date
Batched/Print Date	The date the batch was created and printed through the export process within your system
Import Date	The date the batch acknowledgement was imported into your system
Days Elapsed (Batched/Printed to Import)	A calculated field indicating the days elapsed between when the batch was created and when the batch acknowledgement was imported
	An asterisk (*) prints if the current system date is used for the Import date to calculate days elapsed

Batch Activity List (Continued)

Report Headings and Data Descriptions

Heading	Description
Export Filename Import Filename	Location and filename of the exported batch file and the imported batch file
Total	Total number of records in the batch file
Accepted	Number of accepted records in the batch file
Rejected	Number of rejected records in the batch file
Batch Type	The appropriate Batch Type for each summary record is printed. The following are the batch types which are displayed on this report: • Full Subsidized/Unsubsidized Origination • Full PLUS Origination • Origination Change • Disbursement
Average Days Elapsed	The average number of days elapsed between the date the batch was created and the date the batch acknowledgement was imported
Recommended Tolerance	The tolerance established by the school for the number of days to elapse between batch and import

Subsidized/Unsubsidized MPN List

Description
This report contains detailed records of all active subsidized and unsubsidized loan records in the database and provides Master Promissory Note (MPN) Status for each loan record. MPN listings are printed by student's name and Loan ID(s). Totals are provided for each MPN Status.

In addition, this report monitors the process of receiving signed MPNs from students, updating EDExpress with the date signed, then sending the signed notes with a manifest to COD. You determine an acceptable date range and enter this date range as the tolerance or school guideline. The process time is calculated and averaged over the number of records processed for the reporting period then compared to your school's tolerance. It is important to monitor this process carefully since COD acceptance of the MPN is a part of booking the loan.

Analysis Tips
Before running this report, make sure all Master Promissory Notes received and signed dates have been entered and acknowledgement batches have been processed. Also, take note of the following after running the report:

- Number of MPNs rejected.

  Is there a consistent error that can be corrected that is causing your notes to reject?

- Number of MPNs ready to be printed.

  Based on these numbers, is the frequency of your print schedules adequate?

- Total number of MPNs printed and signed. Based on these numbers, you can project the number of notes and staff needed for future years.

If the MPN report shows your process is performing outside of the school's tolerances, consider the following:

- How does the volume of MPNs affect your processing?

- What is the most efficient number of MPNs included on a manifest?

- Do your procedures call for the creation of a manifest based on the number of MPNs ready to be sent or based on the time elapsed since the last manifest?

PLUS Promissory Notes Measurement Tool Report

Description

This report monitors your PLUS Promissory Note process for all active PLUS loan records and provides the promissory note status for each loan record. The PLUS Promissory Note listings are printed by Student's Name, PLUS Borrower's Name and Loan ID. Totals are provided for each PLUS Promissory Note Status.

In addition, this process includes receiving signed promissory notes from PLUS borrowers, updating EDExpress with the date signed, then sending the signed notes with a manifest to the LOC. You determine an acceptable date range and enter this date range as the tolerance or school guideline. The process time is calculated and averaged over the number of records processed for the reporting period then compared to your school's tolerance. It is important to monitor this process carefully since LOC acceptance of the promissory note is a part of booking the loan.

At the time you select this report from EDExpress you have the option to print just the exceptions (those outside the tolerance range) on the report, select a date range for the reporting period, print totals only, plus the standard sort and selection criteria. (Refer to the sample report on page B-11.)

Analysis Tips

Take note of the following:

- Number of Rejected PLUS Promissory Notes.

  Is there a consistent error that can be corrected that is causing your notes to reject?

- Number of PLUS Promissory Notes ready to be printed.

  Based on these numbers, is the frequency of your print schedules adequate?

If the PLUS Promissory Note report shows your process is performing outside of the school's tolerance, consider the following:

- How does the volume of notes affect your processing?

- What is the most efficient number of notes included on a manifest?

- Do your procedures call for creation of a manifest based on the number of notes ready to be sent or based on time elapsed since last manifest?

Status Measurement Tool Report

(Formerly the Booked Status Measurement Tool Report)

Description

This report provides a review of booked and unbooked records in the database within a specified disbursement date range. This information is separated into a booked section and an unbooked section. To be included in this report a loan record and at least one actual disbursement record must exist in the database. This report can be manually compared to the LOC data received in the Direct Loan School Account Statement. Before running this report make sure all booking notification acknowledgements have been imported. (Refer to the sample report on page B-15 and B-16.)

Analysis Tips

This report may be used to:

- Identify and resolve disbursement records with booking problems.

    For example:

    - This report lists disbursement records with all three status flags (origination, promissory note, and disbursement). If one or more of these status flags are not in an "A" status, the school needs to research and resolve those items so the disbursement record can book.

    - This report can be used to compare EDExpress Direct Loan data to LOC data received in the Direct Loan School Account Statement.

    - Analyze the bottlenecks in processing.

    For example, the report indicates a high percentage of records in a B (Batched) status. If a disbursement is in a B (Batched) status, it may mean the school forgot to transmit the batch or import the acknowledgement.

Report Headings and Data Descriptions

Heading	Description
Student's Name	The loans are identified and can be sorted by the student's name
PLUS Borrower's Name	The PLUS loans are identified by the PLUS borrower's name
	For Subsidized or Unsubsidized loans this is blank
Loan ID	Identifies the loan record
	The report can be sorted by Loan ID
Current SSN	Identifies the student's Social Security Number
Origination Status	The status of the loan origination record
	Valid values are:
	B = Batched or grouped and ready to transmit to the LOC E = Error, previously rejected by the LOC A = Accepted previously by the LOC
	Note: The values of N (Not Ready to Originate) and R (Ready to Originate) are valid status values, but do not appear on this report
MPN/PLUS Promissory Note Status	The status of the Master Promissory Note (MPN) or the PLUS Promissory Note
	Valid values are:
	S = Signed and received by the school M = Included on a shipping manifest to be mailed to LOC E = Error, PLUS promissory note previously rejected by the LOC Q = Error, MPN previously rejected by the LOC X = Pending at the LOC A = Accepted

Anticipated Disbursements List

Description
This report provides a review of loans with an anticipated loan amount, with corresponding actual disbursements or with no actual disbursements. The report prints the Loan ID, Student's Name, PLUS Borrower's Name, Anticipated Disbursement, and if requested, Actual Disbursement Number(s), Types, and Dates.

Analysis Tips
This report is a valuable tool for viewing a borrower's anticipated disbursements and anticipated disbursement dates versus a borrower's actual disbursement and actual disbursement date. The Total Net Anticipated Disbursement Amount can assist in making Drawdown Requests.

Loans List

Description
This report provides a listing of the details of each loan record on your database including Loan ID, Student's Name, PLUS Borrower's Name, Loan Origination Batch ID, Current SSN, Loan Type, Grade Level, Loan Amount Approved, Loan/Credit Status, and Loan Origination Date. Sort options are available to print by SSN, Loan ID, or Last Name. You can print subtotals and totals or you have the option to print only totals. Also if you select the option to check annual subsidized/unsubsidized loan limits, any subsidized or unsubsidized loan in this category is asterisked with "May Exceed Annual Loan Limits."

Analysis Tips
This report can be utilized to review the status of all loans for a given student and can be useful in determining a student's annual loan limit. The totals on this report allow you to compare the number of loans originated at your school to the number of actual unduplicated loan borrowers.

School/COD Loan Totals List

Description
This report compares the total net disbursement amount at your school to the total net disbursement amount at COD.

Analysis Tips
Analysis of this report identifies discrepancies between actual disbursement records on file at your school versus actual disbursement records accepted at COD and may assist in the reconciliation process. This analysis identifies actual disbursement records that are on record at your school and may require further research to determine why these records are not yet accepted at COD.

I hereby certify that each borrower named on the enclosed notes/disclosures is
accepted for enrollment on at least a half-time basis and is making satisfactory
progress in a program that is eligible for the loan type(s) awarded. I certify that
each student is an eligible borrower in accordance with the Act. I further certify
that each borrower's eligibility for a Pell Grant has been determined, that each
borrower is not incarcerated, and that each borrower has been determined eligible for
loan(s) in the amount(s) certified. I further certify that the disbursement schedules
comply with the requirements of the Act and hereby authorize the Department of
Education to adjust disbursement dates if necessary to ensure compliance with the Act.
I further certify that, based on records available and due inquiry, each borrower has
met the requirements of the Selective Service Act, that each borrower is not liable
for an overpayment of any Federal grant made under the Act, and that the information
provided in the Borrower and the School sections of the promissory notes/disclosures
(including information supplied in electronic format) is true, complete and accurate

Disclosure Statement (continued)

This Disclosure Statement provides information about the Direct Subsidized Loan and/or Direct Unsubsidized Loan that your school plans to disburse (pay out) by crediting your student account, paying you directly, or both. It replaces any Disclosure Statements that you may have received previously for the same loan(s). Keep this Disclosure Statement for your records.

You must have signed a Master Promissory Note (MPN) before your loan money is disbursed. The MPN, the Borrower's Rights and Responsibilities statement, and the Plain Language Disclosure explain the terms of your loan(s). If you have any questions about your MPN or this Disclosure Statement, contact your school.

Item 9 on the front of this Disclosure Statement provides the following information about the amount of each loan that your school plans to disburse to you:

- **Gross Loan Amount--**This is the total amount of the loan that you are borrowing. You will be responsible for repaying this amount.

- **Loan Fee Amount--**This is the amount of the fee that we charge on your loan. It is based on a percentage of your Gross Loan Amount. The percentage is shown in Item 8. The Loan Fee Amount will be subtracted from your Gross Loan Amount.

- **Interest Rebate Amount--**This is the amount of an up-front interest rebate that you may receive as part of a program to encourage timely repayment of Direct Loans. If you receive a rebate, the Interest Rebate Amount will be added back after the Loan Fee Amount is subtracted.

  To keep an up-front interest rebate that you receive on your loan, you must make all of your first 12 required monthly payments on time (we must receive each payment no later than 6 days after the due date) when you begin repaying your loan. You will lose the rebate if you do not make all of your first 12 required monthly payments on time. If you lose the rebate, we will add the Interest Rebate Amount back to the principal balance on your loan account.

- **Net Loan Amount--**This is the amount of your loan money that remains after the Loan Fee Amount is subtracted and the Interest Rebate Amount is added. Your school will disburse the Net Loan Amount to you by crediting your student account, paying you directly, or both.

  Item 9 shows your school's plan for disbursing your Net Loan Amount to you. The actual disbursement dates and amounts may be different than the dates and amounts that are shown. Your school and the Direct Loan Servicing Center will notify you of the actual disbursement dates and amounts.

Before your loan money is disbursed, you may cancel all or part of your loan(s) at any time by notifying your school.

After your loan money is disbursed, there are two ways to cancel all or part of your loan(s):

- Within 14 days after the date your school notifies you that it has credited loan money to your student account, or by the first day of your school's payment period, whichever is later (your school can tell you the first day of the payment period), you may inform your school that you want to cancel all or part of the loan money that was credited to your account. Your school will return the cancelled loan amount to us. You do not have to pay interest or the loan fee on the part of your loan(s) that you tell your school to cancel within these timeframes. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you tell your school to cancel. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that was cancelled.

  If you ask your school to cancel all or part of your loan(s) outside the timeframes described above, your school may process your cancellation request, but it is not required to do so.

- Within 120 days of the date your school disbursed your loan money (by crediting the loan money to your student account, paying it to you directly, or both), you may return all or part of your loan(s) to us. Contact the Direct Loan Servicing Center for guidance on how and where to return your loan money. You do not have to pay interest or the loan fee on the part of your loan(s) that you return within 120 days of the date that part of your loan(s) is disbursed. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you return. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that you return.

William D. Ford Federal Direct Loan Program
Direct Subsidized Loans and Direct Unsubsidized Loans
Plain Language Disclosure

1. General Information – You are receiving a student loan to help you cover the costs of your education. This Plain Language Disclosure (Disclosure) summarizes information concerning your loan. Please read this Disclosure carefully. Throughout this Disclosure, the words "we," "us," and "our" refer to the U.S. Department of Education. If you have questions about your loan, contact our Direct Loan Servicing Center. The Direct Loan Servicing Center's telephone number and address are shown on all of the correspondence you will receive related to your loan.

You must repay this loan, even if you are unhappy with your education, do not complete it, or cannot find work in your area of study. Borrow only the amount you need.

2. Master Promissory Note (MPN) – You are receiving a loan under an MPN that you signed previously. You may receive additional loans under that MPN for up to 10 years if you continue to attend school and if your school is authorized and chooses to make multiple loans under the same MPN. If your school is not authorized or chooses not to make multiple loans under the same MPN, or if you do not want to receive more than one loan under the same MPN, you must sign a new MPN for each loan. If you do not want to receive more than one loan under the same MPN, you must notify your school or the Direct Loan Servicing Center in writing.

3. Loan Terms and Conditions – This Disclosure summarizes information concerning your loan. Please refer to your MPN and the Borrower's Rights and Responsibilities statement that you received previously for the complete terms and conditions of your loan. If you need another copy of the Borrower's Rights and Responsibilities statement, contact the Direct Loan Servicing Center. Unless we tell you otherwise in this Disclosure, your MPN and the Borrower's Rights and Responsibilities statement control the terms and conditions of your loan.

4. Maximum Loan Amounts – There are annual and total (aggregate) limits on the amount you may borrow, as explained in the Borrower's Rights and Responsibilities statement that you received previously. The amount you borrow each year and in total cannot be more than these limits.

5. Use of Loan Money – You may use your loan money only to pay for educational expenses (for example, tuition, room, board, books) at the school that determined you were eligible to receive the loan.

6. Disbursement of Loan Money – Generally, your school will disburse (pay out) your loan money in more than one installment, usually at the beginning of each academic term (for example, at the beginning of each semester or quarter). If your school does not use academic terms, it will generally disburse your loan in at least two installments, one at the beginning of the period of study for which you are receiving the loan and one at the midpoint of that period of study. Your school may disburse your loan money by crediting it to your student account, or may give it to you directly by check or other means. The Direct Loan Servicing Center will notify you each time your school disburses a portion of your loan money.

7. Change of Status or Address - You must notify both your school and the Direct Loan Servicing Center if you:

- stop attending school,
- drop below half-time enrollment,
- change your address, or
- change your name (for example, maiden name to married name).

In addition, you must notify the Direct Loan Servicing Center if you:

- transfer from one school to another school,
- change employers or if your employer's address or phone number changes,
- change your telephone number, or
- have any change in status that affects your loan (for example, if you received a deferment but no longer meet the eligibility requirements for that deferment).

8. Canceling Your Loan – Before your loan money is disbursed, you may cancel all or part of your loan at any time by notifying your school. After your loan money is disbursed, there are two ways to cancel all or part of your loan:

- Within 14 days after the date your school notifies you that it has credited loan money to your student account, or by the first day of your school's payment period, whichever is later (your school can tell you the first day of the payment period), you may inform your school that you want to cancel all or part of the loan money that was credited to your account. Your school will return the cancelled loan amount to us. You do not have to pay interest or the loan fee on the part of your loan(s) that you tell your school to cancel within these timeframes. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you tell your school to cancel. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that was cancelled.

  If you ask your school to cancel all or part of your loan(s) outside the timeframes described above, your school may process your cancellation request, but it is not required to do so.

- Within 120 days of the date your school disbursed your loan money (by crediting the loan money to your student account, paying it to you directly, or both), you may return all or part of your loan(s) to us. Contact the Direct Loan Servicing Center for guidance on how and where to return your loan money. You do not have to pay interest or the loan fee on the part of your loan(s) that you return within 120 days of the date that part of your loan(s) is disbursed. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you return. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that you return.

9. Loan Fee – We charge a loan fee on your loan of up to 4 percent of the principal amount of the loan. This fee will be subtracted from the loan amount that is disbursed to you. If you cancel or return all or part of your loan within 120 days of the date your loan money is disbursed, no loan fee will be charged on the amount that you cancel or return.

10. Interest – The interest rate on your loan is a variable rate which can change each year on July 1. As a result, your interest rate may change annually, but it will never be more than 8.25%. We will notify you of the interest rate formula and the actual interest rate for each loan that you receive.

We do not charge interest on Direct Subsidized Loans while you are attending school, during your grace period, and during deferment periods. We charge interest on Direct Subsidized Loans during all other periods (starting on the day after your grace period ends), including forbearance periods.

We charge interest on Direct Unsubsidized Loans during all periods. This includes periods while you are attending school, during your grace period, and during deferment and forbearance periods. Therefore, you will pay more interest on Direct Unsubsidized Loans than on Direct Subsidized Loans.

You are responsible for paying the interest on the unpaid amount of your loan during the periods described above. If you do not pay the interest, we will add it to the unpaid amount of your loan. This process is called capitalization. Capitalization increases the unpaid amount of your loan, and we will then charge interest on the increased amount.

11. Up-Front Interest Rebate – You may receive an up-front interest rebate on your loan as part of a program to encourage timely repayment of Direct Loans. The rebate will be equal to a percentage of the loan amount that you borrow. If you receive a rebate on your loan, the Direct Loan Servicing Center will send you more specific information.

To keep the up-front interest rebate that you receive on your loan, you must make all of your first 12 required monthly payments on time (we must receive each payment no later than 6 days after the due date) when your loan enters repayment after you leave school or drop below half-time status.

You will lose the rebate if you do not make all of your first 12 required monthly payments on time. If you lose the rebate, we will add the rebate amount back to the principal balance on your loan account.

12. Grace Period – You will receive a 6-month grace period that starts the day after you stop attending school or drop below half-time enrollment. You do not have to begin making payments on your loan until after your grace period ends.

13. Repayment – You must repay each loan that you receive according to the repayment schedule provided by the Direct Loan Servicing Center. You must begin repaying your loan after your grace period ends. The amount of time you have to repay your loan (the repayment period) will vary from 10 to 30 years, depending on the repayment plan that you choose and the total amount you have borrowed. You may choose one of the following repayment plans:

- Standard Repayment Plan
- Extended Repayment Plan
- Graduated Repayment Plan
- Income Contingent Repayment Plan

These plans are designed to give you flexibility in meeting your obligation to repay your loan. The Borrower's Rights and Responsibilities statement that you received previously explains the terms and conditions of each repayment plan. You may change repayment plans at any time after you have begun repaying your loan. You may make loan payments before they are due, or pay more than the amount due each month, without penalty. When you have fully repaid a loan, the Direct Loan Servicing Center does not have to send you the original MPN but may instead send you a letter telling you that you have paid off your loan. You should keep this letter in a safe place.

14. Late Charges and Collection Costs – We may require you to pay a late charge if you do not make any part of a payment within 30 days after it is due. We may also require you to pay other charges and fees involved in collecting your loan.

15. Deferment – After you have begun making payments, you may, if you meet certain requirements, receive a deferment that allows you to temporarily stop making payments on your loan. For example, you may receive a deferment while you are attending school at least half-time or for up to 3 years while you are unemployed. For a complete list of deferments, refer to the Borrower's Rights and Responsibilities statement that you received previously. To request a deferment, contact the Direct Loan Servicing Center.

We do not charge interest on Direct Subsidized Loans during deferment periods. However, we do charge interest on Direct Unsubsidized Loans during deferment periods.

16. Forbearance – A forbearance allows you to temporarily make smaller payments or temporarily stop making payments on your loan. If you cannot make your scheduled loan payments but do not qualify for a deferment, we may give you a forbearance. For example, we may give you a forbearance if you are temporarily unable to make scheduled loan payments because of financial hardship or illness. We may also give you a forbearance under other conditions as described in the Borrower's Rights and Responsibilities statement that you received previously. To request a forbearance, contact the Direct Loan Servicing Center.

We charge interest on both Direct Subsidized Loans and Direct Unsubsidized Loans during forbearance periods.

17. Loan Consolidation – You may consolidate (combine) all of your eligible federal education loans into one loan. Consolidating your loans gives you up to 30 years to pay them back and may lower your monthly payments. That may make it easier to repay your loans. However, because you make payments for a longer period of time, you will pay more interest if you consolidate your loans. Contact the Direct Loan Servicing Center for more information about loan consolidation.

18. Loan Discharge – We will discharge (forgive) your loan if:

- we receive acceptable documentation that you died or became totally and permanently disabled,
- you cannot complete your course of study because your school closes, or
- your school falsely certified your eligibility to receive a loan.

We may also discharge your loan up to the amount of any refund that your school should have returned to us, but did not return. We will not automatically discharge your loan if you file for bankruptcy.

We may forgive up to $5,000 of any loans you received after October 1, 1998 if you teach full-time for 5 consecutive years in certain low-income elementary and secondary schools and meet certain other qualifications, and if you did not owe a Direct Loan Program or Federal Family Education Loan Program loan as of October 1, 1998, or as of the date you obtain a loan after October 1, 1998. Contact the Direct Loan Servicing Center for specific eligibility requirements.

In some cases, you may not have to repay your loan if you claim, as a defense against repayment, that your school did something wrong or failed to do something that it should have done. You can make such a defense against repayment only if what your school did or did not do could result in legal action being taken against the school under state law. If you believe that you have a defense against repayment of your loan, contact the Direct Loan Servicing Center.

19. Credit Bureau Reporting – We will report information about your loan to one or more national credit bureaus. This information will include the disbursement dates, amount, and repayment status of your loan (for example, whether you are current or behind schedule in making payments).

20. Demand for Immediate Repayment – We will require you to immediately repay the entire unpaid amount of your loan (on your MPN this is called "acceleration") if you:

- receive loan money but do not enroll at least half-time at the school that certified your eligibility to receive the loan,
- use your loan money to pay for anything other than educational expenses at the school that determined you were eligible to receive the loan,
- make any false statement that causes you to receive a loan that you are not eligible to receive, or
- default on your loan.

21. Default – You are in default on your loan if you:

- do not repay the entire unpaid amount of your loan if we require you to do so,
- have not made a payment on your loan for at least 270 days, or
- do not comply with other terms and conditions of your loan, and we conclude that you no longer intend to honor your obligation to repay your loan.

If you default on your loan, we will report that fact to all national credit bureaus. We may sue you, take all or part of your federal tax refund, and/or garnish your wages so that your employer is required to send us part of your salary to pay off your loan. We will require you to pay reasonable collection fees and costs, plus court costs and attorney fees. You may face other serious consequences.
